### **E-mobility**

# The home of charging

Terra DC wallbox. A compact wallbox ev charger for residential, office, commercial, and public assets applications.

• Intelligent design: compact, convenient, connected

 $\oplus$ 

- Future-proof: ROI maximized
- Safety: built-in protection

At ABB, we have 130 years of heritage in accessible technology leadership and a world-leading AC and DC charging portfolio – for safe, smart and sustainable mobility.

That's why some of the world's biggest brands trust us to provide market-leading e-mobility solutions from highway to home.

# **Terra DC wallbox** The smart e-mobility investment

Residential Multi-tenant homes, residential communities Office Small and large offices, business parks and complexes

#### Commercial

Hotels & hospitality sports institutions, shopping centres, commercial fleets, public or private campus, parking structures, car dealerships, race tracks **Public assets** Bus depots, utility, sensitive grid applications

# Terra DC wallbox benefits

### Intelligent design: compact, convenient, connected

4

The DC wallbox with **ultra-compact footprint** enables flexibility in installation to serve a variety of site conditions

Intuitive interface with a **user-friendly 7-inch color touch screen** and easy-reach cables for convenient parking and charging

Broad range of connectivity options including **3G/4G modem**, Ethernet and **GSM for easy control** and integration with existing infrastructure

### Future-proof: ROI maximized

High voltage charging capabilities supporting the EVs from today and into the future

**Enabled for smart charging via OCPP** to balance load demands and reduce infrastructure costs

Connection to ABB Ability platform manages over-the-air-authentication and payment, remote diagnostics, software updates and asset monitoring

### Safety: built-in protection

**Evaluated and tested to the highest standards** by independent, third party safety certification organizations

**Certified with EMC Class B protection** for safe use in residential areas

Integrated ground-fault and trip protection protect both user and car

# Smarter charging

EU portfolio, three phase

#### Description

DC charger for electric vehicles, CCS2 and CHAdeMO Total weight 10 kg backplate + 60 kg main body and cables Power supply network: 3 phase 400 V AC +/-10 % (50/60 Hz) Connectivity: Cellular connection, 3G / 4G, 2 port RJ45, Ethernet Metal Connector/cable holders provided standard with the product
