# Be inspired to think differently.

The bathroom is undoubtedly one of the most important rooms in the home, so having the right lighting can make or break the room. Don't just think of adding a central ceiling light or spot lights to your designs, go the extra mile with your lighting scheme and truly inspire with the most stunning outcome every time.

Our promise is that we'll show you how.

We want to go one step further than any other bathroom lighting supplier by providing a step-by-step guide to specifying the perfect bathroom lighting scheme. Not only do we have a comprehensive range of products to allow you to create stunning 'spa inspired' spaces but we have representatives dedicated to help you with specification, training and ultimately going the extra mile to give you the confidence to transform your designs into something extra special each and every time.

With a focus on British lighting design, high quality products and an unrivaled support structure, we want to show you the future of bathroom lighting.

# Our values...

## QUALITY THROUGHOUT

We pride ourselves on offering superior quality products, using the best components and materials to guarantee long-life performance, high light output and enhanced durability. Our bathroom products come with a 2 Year Guarantee for your customers peace of mind.

## ILLUMINATE & INNOVATE

Design and development has always been at the heart of what we do. We don't just follow the trends - we help set them. We design and develop products in the UK, allowing us to put our expertise and industry knowledge to use, to ensure every detail is designed with sheer excellence and to the highest standard.

## DEDICATED SUPPORT

We offer comprehensive training, specialist marketing resources and an experienced support structure to offer guidance to all our customers. With 15 years industry experience and a strong focus on service, let us show you the Sensio way.

# A reputation to be proud of.

Founded in 2000, Sensio has grown from a small, family run business operating from the family's garage, to a market leading authority on furniture lighting solutions. Still operating as a family business, we pride ourselves on bringing high quality, innovative UK product designs to the market year on year.

PRODUCT  
**DESIGN**  
WHAT SETS  
US APART

Our aim is to push the boundaries of our industry by designing and delivering the most innovative, unique products. We keep fully abreast of the latest consumer opinions and market trends; it's what fuels our ideas for new product development and prototypes

Having a design and development department at our head office in West Yorkshire means we have the highest degree of control over our products and continually deliver new and innovative ideas to excite our customers.

Helping you bring your customers' visions to life is our inspiration which is why we will continue to listen and grow our own unique product offering. We don't just think lighting, we think furniture; to ensure our unique product offering enhances your designs.

Not only do we work hard to bring you new product designs, we also place a focus on constantly looking at improving our existing product offering, enhancing and upgrading products with the latest technology and using your feedback to make aesthetic changes where needed.

# Ordering online

## It's simple, quick and easy.

We make it easy to buy Sensio Bathroom Lighting. Buy direct via the Sensio website, just follow these 3 simple steps...

1. Create a trade account
2. Log into your account
3. Place your order

The Sensio website has been designed to aid anyone who aspires to introduce high quality, energy efficient LED lighting into their bathroom. Find everything you need on the Sensio website, quickly and easily. Our lighting is categorised by location or simply enter the Sensio code or product name into the search bar if you are looking for a specific product.

Desktop • Tablet • Mobile

# Software

We know how important it is for you to show your customers exactly how their bathroom design will look in the initial stages. Adding a stunning lighting scheme to your plans may just give you the edge and provide the additional 'WOW factor' your customer is looking for. That's why we've made it as easy as possible for you by ensuring the entire Sensio product portfolio is available on the leading industry design software.

**sensio**

## LIGHTING SPECIFICATION MODULE

Create similar scenes to this with 20-20 Technologies to showcase lighting products from the Sensio catalogue in a realistic bathroom space.

Sensio product is available on all the leading bathroom design and online ordering software platforms...

The logo for 2020 Technologies, featuring the numbers '2020' in a bold, sans-serif font. The first '0' is orange, while the other digits are grey.

[www.2020technologies.com](http://www.2020technologies.com)

A quick and simple system with which you can plan and specify a truly representative full lighting plan into CAD bathroom designs. This means your customer can get a real feel for how their bathroom will look with the exact lighting they will receive included.

- > Select lighting by location.
- > The lighting models are a true representation of the actual products – lumen values, beam angles, kelvins and dimensions have all been taken into consideration when the models were produced.
- > Create a quote for the lighting specified in 20-20 Technologies directly, alternatively link to KBB Connect to create your quote with no need to re-input the information.

The logos for KBBConnect and KBBSmart. KBBConnect features a green and yellow icon of four dots in a square, followed by the text 'KBBConnect' in green and yellow. KBBSmart features a yellow and orange icon of four dots in a square, followed by the text 'KBBSmart' in yellow and orange.

[www.kbbconnect.co.uk](http://www.kbbconnect.co.uk)

Easily quote and order Sensio items. The Sensio listing has been designed to save you time, with all the information you need in one place. We've thoroughly thought out the information and layout of the information on KBB Connect and spent a lot of time in perfecting the system to make it as simple and effective to use as possible.

- > In-situ photographs of all products so your customers can fully appreciate how the fitting will look when in place.
- > Products are broken down by bathroom location, making it even easier to choose the required lighting options.
- > We've added a pop-up feature for all items which require a driver/cabling to run, so it's clear and simple to select the correct driver/cable before ordering.

The logo for Compusoft, featuring the word 'Compusoft' in white on a dark green oval background, with the tagline 'more faster easier' in smaller white text below it.

[www.compusoftgroup.com](http://www.compusoftgroup.com)

The Sensio catalogue is available to users of the Winner Design software (Compusoft GB Ltd). A quick and simple, yet effective piece of software which makes it simple to specify the required lighting for your designs.

- > Generic product models, however the full Sensio catalogue is available and the Sensio codes are added to your design in the area's specified.
- > The cost of the lighting is added to the customer quotation for all lighting specified. Following confirmation of the quotation you are able to send an email directly to your supplier of Sensio products, to save you time.
- > Calculate your profit margin via the Winner software.

## Specifying a bathroom lighting scheme...

Everyone has a different vision when it comes to their new bathroom. As a designer, it may make your planning simpler when a customer simply wants ceiling spot lights in their brand new bathroom, however if you could present a stunning full lighting scheme every time tailored specifically to each customers routines and needs, just imagine the difference in your designs compared to what others can offer.

# What to Consider...

## 1. LED Colour

### > Warm White

Warm white LED's are filled with calming warm tones and emit a soft yellow glow. They complement wood surfaces and muted furniture perfectly and are a great choice for making your bathroom feel cosy and relaxing.

### > Cool White

Cool white LED's create an uplifting environment. They are perfect for modern bathroom designs as the light bounces off gloss and contemporary surfaces to create a stunning effect.

The lighting in a bathroom serves multiple purposes. It isn't just about practicality, it's about creating a stylish retreat that leaves you feeling relaxed, refreshed and revived. Here are some of the key features our lighting experts recommend to think about when wanting to enhance your bathroom design with lighting...

Warm White

Cool White

*The LED colour you choose can make a huge impact!*

## 2. Task Lighting

This is the light that provides improved illumination for everyday tasks from shaving to makeup application.

### Types of task lighting include;

- > Ceiling Lighting
- > Illuminated Mirrors
- > Wall Lighting
- > Over Mirror Lighting

*Our designer recommends using a combination of lighting types; task, mood and convenience.*

## 3. Mood Lighting

Mood lighting will add dimension and depth to your bathroom to create atmosphere and ambience. It is also great for highlighting elements in your bathroom that you want to show off.

### Types of mood lighting include;

- > Flexible Strip Lighting
- > Floor Level Spot Lighting

*There is no end to the places Flexible Strip Lighting can be used including under bathroom furniture, in furniture recesses, hidden niches and around shower areas. Ensure you check the IP Rating requirement in the area you are looking to illuminate.*

# 4. Convenience Lighting

Convenience lighting illuminates the interior of bathroom cupboards, cabinets and drawers when opened for ultimate ease of use. A beautiful yet practical extra that brings a touch of luxury to your bathroom design.

## Types of convenience lighting include;

- > Cabinet Lighting (including Lithium-ion Battery Lighting)

*Create layers of lighting so that your lighting scheme doesn't look flat. Thinking in terms of layers also gives you the flexibility to address all of your needs.*

# 5. Style

When specifying bathroom lighting you first need to determine the customer's preferences in terms of how they envisage using the space. Warm white LED's are perfect for customers wanting a calming and relaxing space where their bath is a tranquil escape from the stresses of the day. Alternatively, cool white LED's are great for customers who may only have a shower in their space so their lighting leaves them feeling refreshed and rejuvenated.

Bathroom lighting isn't just about function, it's also about including products that are of high design and premium quality. It is these luxurious details that will make your customer's bathroom stand apart and our extensive bathroom lighting range is guaranteed to transform the ordinary to the extraordinary.

*Lighting that fulfils all your needs and is totally eye-catching.*

# 6. IP Rating & Zones

Safety is the most important factor when choosing bathroom lighting and therefore great care needs to be taken. That's why each product page of this brochure clearly tells you the IP rating and the zone areas of each product to make it as easy as possible - allowing you to specify bathroom lighting safely.

*See page 82 & 83 for more details on IP ratings and bathroom zones.*

# Sensio products for every bathroom...

- 22 Illuminated LED Mirrors
- 47 Ceiling Lighting
- 56 Wall Lighting
- 60 Over Mirror Lighting
- 67 Flexible Strip Lighting
- 68 Plinth Lighting
- 69 Aluminium Profiles
- 70 Cabinet Lighting
- 78 Bathroom Accessories

# Keep a look out for these features...

We use product feature logos on each product page to give you a quick overview. Here's a key for these logos.

## Bluetooth™

Look out for our mirrors that feature audio Bluetooth™ technology, meaning that you can play your favourite music or listen to the radio via Bluetooth™ connectivity in the bathroom.

## Demister Pad

Many of our mirrors contain full sized heated demister pads, which heat up to keep your mirror clear.

## Touch Sensor

Some of our mirrors feature a smart touch sensor that allows you to easily switch your lights on and off with one simple touch.

## Infrared Sensor

Some of our mirrors feature an infrared sensor meaning the lights can be switched on/off with the swipe of a hand - no touch needed.

## Shaver Socket

Look out for mirrors that contain a shaver socket. These are suitable for electric shavers and toothbrushes. These are hidden away discretely in some of our mirrors.

## Rotation Ready

Some of our mirrors are rotatable, meaning that you can hang them either landscape or portrait.

## COB LED Lighting

COB (Chip on Board) is the very latest technology in LED lighting. Benefits include enhanced efficiency, higher light output, longer lifespan and no visible individual LED diodes.

## Fire Rated

Ceiling lights that are fire rated have been tested and proved to maintain the integrity of the surface in which it is fitted. The fitting will expand if heated above a certain temperature and fill any gaps around it containing fire.

## IP Rated

All of our products comply with electrical equipment (safety) regulations and each of our bathroom products have been given an appropriate IP rating which is clearly stated on each page. For more information see page 83.

## Zones

The IEE Wiring Regulations (17th Edition) have identified bathroom zones to indicate what type of electrical equipment can be installed. Each page states the zone that the product is safe for use in. For more information see page 82.

## Voltage

Any product with a 240V rating is a mains powered product which does not require an LED driver. We also offer low voltage products listed as 350mA or 24V, for these please ensure you order the driver listed on the product page.

# Illuminated LED Mirrors

## make a statement

A mirror is an essential element in any bathroom as it is often integral to the daily routine. Incorporate an illuminated mirror to add depth and make a design statement. Here at Sensio we offer an extensive range of illuminated LED mirrors in various styles and often with a wealth of integrated features. Alternatively, our range of mirrored cabinets are perfect for adding style whilst maximising storage space. Whatever your customer's needs our collection is guaranteed to meet them. Choose from the latest features such as touch sensors, colour changing LED technology and even enjoy your favourite music with our range of Audio Bluetooth™ mirrors. All of our illuminated mirrors are IP44 rated and really do have a beauty of their own that can truly reflect your customer's style and enhance any bathroom design.

# LED Ceiling Lighting

## brighten things up

Ceiling lighting is the one element of a bathroom lighting scheme which is undoubtedly essential. Consider the overall style and size of the room to ensure you choose the best solution for your customer.

Select from a range of decorative LED ceiling light options to create a stunning focal point and high-end look. Alternatively, we offer a range of IP rated spot lights, which allow you to tailor a solution perfect for your customer. All Sensio lighting is 240V so are simple to install.

To purchase Sensio ceiling spot lights you need to;

1. Choose fire rated or non-fire rated fittings
2. Choose your finish; white or chrome
3. Choose your LED lamp - listed on each page
4. Choose your preferred LED colour - cool white or warm white.

# Cora

## Dome LED Ceiling Light

'a stunning focal point for any bathroom'

- > This stylish fitting features a chrome ceiling plate and frosted glass diffuser, designed to provide superior illumination.
- > This stunning design is sure to make a strong style statement in any bathroom.
- > Once illuminated gives out a beautiful diffused light.
- > 60 long lasting LED's integrated within the fitting - lifespan of 30,000 hours.
- > This fitting has a luminous efficacy of 87 lm/W making it exceptionally bright to provide perfect task lighting.
- > The warm white LED's create a feel of warmth and comfort in the bathroom.
- > IP44 rated, suitable for use in zone 2 areas of the bathroom (see page 82 for zonal diagram).

# Wall & Over Mirror Lighting

## a high end finish

Introducing wall lighting creates a stylish alternative to the usual bathroom lighting and can dramatically alter the look and feel of the room. Our simple yet sophisticated range is sure to add elegance to any bathroom interior. Mount a fitting at either side of a non-illuminated bathroom mirror to create perfect task lighting for even illumination.

Our over mirror lighting range is specially designed to sit above a bathroom mirror or cabinet to offer additional light. These attractive fittings provide task lighting that makes those bathroom routines a little easier. A small detail that creates dramatic impact in your bathroom. Look out for our over mirror lights which feature COB LED technology to ensure the brightest light output and longest lifespan.

# Erin

## Single LED Tube Wall Light

'create a high-end look in an instant'

- > This wall light features a chrome arm with a diffused white cylindrical lamp holder.
- > Simple, sleek design that will bring a touch of style to any bathroom.
- > The diffused glass around the light creates a tranquil atmosphere that anyone can enjoy.
- > Our designer suggests mounting one at either side of a vanity mirror to create a real focal point in your bathroom.
- > The 360° beam angle means light is cast from every angle of this fitting to provide perfect task lighting and illumination to your bathroom.
- > LED G9 Capsule lamp included - lifespan of 30,000 hours.
- > Warm white LED's create a feel of warmth and comfort in the bathroom.
- > IP44 rated, suitable for use in zone 2 areas of the bathroom (see page 82 for zonal diagram).

# Mood Lighting

## relax at the end of the day

At the end of the day the bathroom needs to be a place that helps you wind down. Inject tranquility and create an aura of relaxation by introducing mood lighting into your bathroom. If you have niches in your bathroom, illuminate them with an IP rated Flexible Strip or integrate Spot Lights around the bath to create a relaxing ambience as well as a striking focal point. Mood lighting is also perfect for enhancing features to create a dramatic effect. Our range of mood lighting is all IP rated and can be used in all bathroom zones. They are guaranteed to help create a peaceful sanctuary where you can escape from the stresses of the day, relax and soak your troubles away.

# Lumo IP65 Flexible Strip

## 'create stunning effects'

- > Introduce stunning mood lighting to your bathroom and create dramatic effects by enhancing features or main focal points.
- > This high output, IP65 rated flexible LED strip light is available in 1m and 2m lengths.
- > The product has 3M self-adhesive backing, rubber clips and screws are also provided in the pack for additional security.
- > The strip can be cut at 25mm intervals indicated by scissor marks (the strip can only be cut once).
- > When the strip has been cut the end must be sealed using an end cap and silicone to maintain the IP integrity (one end cap provided with each fitting).
- > Our designer suggests placing flexible strips in niches in bathroom walls or cabinets to create a striking effect. If you have a floating vanity unit, use flexible strip beneath to add depth.
- > Available in both cool white and warm white LED, allowing you to harmoniously colour match all lighting in your bathroom design.
- > IP65 rated, suitable for use in zone 1 and 2 areas of the bathroom (see page 82 for zonal diagram).

## IP67 Round Plinth Light Kit

## 'mood lighting anywhere in the bathroom'

- > IP67 rated fittings suitable for use in all bathroom zones (see page 82 for zonal diagram).
- > All components required are included in the pack (6 fittings and LED driver).
- > 2 x 500mm cables on each individual fitting. 1.5 metres of mains cable from the driver.
- > Quality stainless steel fitting.
- > The maximum walkover pressure is 100kg.
- > As well as using in the plinth, this fitting is also suitable for use in bath panels, ceramic tiles, natural stone, hard wood or Quartz flooring.
- > Cool white LED, an ideal plinth lighting option for the contemporary bathroom design.
- > Our designer suggests integrating these spotlights around the bath or shower area to create a relaxing, subtle glow and focal feature.
- > Low energy consumption, each fitting runs at only 0.3W.
- > The maximum wattage load of the driver in this pack is 8W.

# Aluminium Profiles

## Fino/Linia

### 'create the perfect solution for you'

- > Our range of aluminium profiles can be surface mounted (Fino) or recessed (Linia).
- > Use them with the IP flexible strip lighting to offer additional protection and create a stunning focal point.
- > Both Fino and Linia are extremely thin to create the ultimate discrete lighting solution.
- > Available in both 1m and 2m lengths.
- > A versatile solution as both the profile and flexible strip can be cut to length - perfect for meeting bespoke sizes.
- > Aluminium profiles come with a frosted cover to create a beautiful diffused lighting effect.
- > Our designer suggests fitting the profiles in bathroom niches to create atmosphere and ambience.
- > End caps and mounting brackets included with each profile.

# LED Cabinet Lighting

## Make life a little easier

Illuminate your cabinets for ultimate ease of use by introducing Cabinet Lighting from the Sensio range. This is a beautiful extra that will bring a level of luxury to any bathroom design as well as making life a little easier. Our Cabinet Lighting range can also be installed underneath your bathroom cabinets to create depth and atmosphere.

Our Lithium Rechargeable Battery lighting options are perfect for use inside bathroom cabinets as their integrated PIR sensor switches the light on automatically once the door is opened for ultimate ease of use. They also have no wiring meaning no electrical installation is required. To learn more about the benefits of our battery operated lighting please see page 73.

# Orca IP44 Recess/Surface Light

## 'task lighting that creates atmosphere'

- > For mounting under cabinets or in cabinets.
- > This fitting can be used to introduce useful task lighting into the bathroom.
- > Alternatively use this fitting as feature lighting to simply create atmosphere.
- > Features an IP44 rated connector on the end of the cable for additional protection.
- > This fitting is supplied with removable collar so can be either recessed or surface mounted.
- > 24 integrated LED's provide optimum light output.
- > Available in both cool white and warm white LED, allowing you to harmoniously colour match all lighting in your bathroom design.
- > If more than one fitting is to be run from a single driver the Y-Splitter is required.
- > IP44 rated, suitable for use in zone 2 areas of the bathroom (see page 82 for zonal diagram).

# Rechargeable Battery Lighting

## Need retrofit lighting? No problem.

As LED technology advances it becomes simpler to create the WOW factor in your bathroom.

We now have a range of products which don't even require electrical installation, the rechargeable lithium battery range. These fittings can be installed by anyone, and are perfect for retrofit installations.

The fittings in this range are perfect for use under or inside bathroom cabinets, with the integrated PIR sensor which switches the light on/off as the door opens/closes.

These fittings are extremely easy to maintain. Each fitting can run for up to 8 months without needing to be re-charged (based on 2.5 minutes usage per day). When the fitting does need to be recharged simply connect the pluggable USB charger into the back of the fitting and run the 5m cable to the nearest socket or USB outlet to charge the fitting.

# Solus Angled LED In Cabinet Spot Light

## 'so simple to install and maintain'

- > The angled round light is perfect for illuminating the interior of bathroom cabinets.
- > Contains a rechargeable Lithium-ion battery. No electrical installation required.
- > The product is cable free for ease of installation.
- > Rechargeable via a pluggable USB charger.
- > Features an integrated PIR sensor which automatically switches the light on when the bathroom cabinet door is opened.
- > The detection range of the PIR is 2m, meaning the fitting can be positioned as required inside the cabinet.
- > The run time of the product is 8 months based on 2.5 minutes of use per day. The charging time is 6.5 hours on average.
- > The product has an additional on/off switch for optional use.
- > This product IP20 rated so must be used outside zones 0, 1 and 2 of the bathroom (see page 82 for zonal diagram).

## Rechargeable Tilttable LED Light

### 'angle the light as you need it'

- > The adjustable light is perfect for illuminating the interior of bathroom cabinets.
- > Contains a rechargeable Lithium-ion battery. No electrical installation required.
- > Cable free for simple installation. Anyone can install.
- > Rechargeable via a pluggable USB charger.
- > Contains a tilttable LED centre. Angle the light to the position you require.
- > Has an integrated PIR sensor which automatically switches the light on when the cabinet door is opened.
- > The charging time of this product is only 3 hours.
- > The LED's in this fitting have a lifespan of 30,000 hours.
- > This is the most discreet rechargeable solution – it has the slimmest profile.
- > This product is IP20 rated so must be used outside zones 0, 1 and 2 of the bathroom (see page 82 for zonal diagram).

## Rechargeable LED Night Light

'illuminates the floor as motion is detected'

- > Perfect for fitting inside cabinets or under floating cabinets in the bathroom.
- > When mounted under a floating cabinet this fitting projects a beam of light across the floor should you need to get up in the middle of the night.
- > Integrated PIR sensor will detect movement from a 2m range.
- > Contains a rechargeable Lithium-ion battery. No electrical installation required.
- > Simple to install, the Orion has an adjustable hinge which is simple to be screwed to the underside of cabinets.
- > Rechargeable via a pluggable USB charger.
- > The fitting has an on/off switch on its right end so can be switched off when use is not required.
- > The LED's in this fitting have a lifespan of 30,000 hours.
- > This product is IP20 rated so must be used outside zones 0, 1 and 2 of the bathroom (see page 82 for zonal diagram).

# Accessories

## it's all in the details

The perfect finish to any bathroom is in the little details, so complete the look by adding the finishing touch with our practical yet stylish accessories. If you've found the perfect mirror but it doesn't feature a shaver socket, simply choose one from our range. If you need some additional storage space our glass LED shelf light is perfect to store your toiletries whilst also being a striking feature.

# Shaver Sockets

## Dual Voltage Shaver Sockets

FINISH:

chrome white

IP20

115V & 230V

'perfect addition alongside your mirror'

- > Our dual voltage shaver socket is available in chrome or white to best suit your bathroom design.
- > Both designs are super slim, making this a very discreet fitting.
- > Compatible with both electric shavers and toothbrushes.
- > If you've found the perfect mirror but it doesn't have a shaver socket then choosing one of these is a great alternative.
- > Dual voltage: 115V & 230V.
- > A neat and practical accessory for any bathroom.
- > IP20 rated, suitable for use outside of zone 0, 1 and 2 areas of the bathroom (see page 82 for zonal diagram).

# Florence

## IP44 LED Glass Shelf Light

### 'add ambience and additional storage space'

- > The Florence has an aluminium frame containing a high power LED strip light. A pane of frosted glass slots into the frame and a diffused and subtle lighting effect is created.
- > High output, cool white LED strip integrated.
- > On/off switch integrated (located on the underside of the shelf – to the right hand side when fit).
- > LED driver built-in so no need to purchase and fit a separate driver.
- > Long lifespan of the LED strip integrated so there is no need for replacement lamps.
- > The maximum weight load of the shelf is 3kg.
- > IP44 rated, suitable for use in zone 2 areas of the bathroom (see page 82 for zonal diagram).
- > This fitting is perfect if you require additional storage space/illumination in close proximity to the sink. (The shelf must be fit a minimum of 0.6m away from the sink or bath/shower).

SE30156W0

# Bathroom Zones

Using electrical equipment in bath or shower rooms has always needed care to ensure safety. The IEE Wiring Regulations (17th Edition) have identified particular zones within the bathroom to indicate what type of electrical equipment can be installed.

## ZONE

**0** Inside the bath or shower. Must have a minimum rating of IP67 and must be low voltage (12V max.)

**1** 225cm above the bath or shower. Minimum rating of IP44. If the fitting is 240V a 30ma RCD must also be used to protect the circuit in this zone.

**2** The area stretching to 60cm outside the bath or shower and 60cm from water outlet of sink. An IP rating of at least IP44 is required.

OUTSIDE ZONES - Anywhere outside zones 0, 1 & 2 where water jets are not used for cleaning purposes, the general rules of BS7671 apply.

# IP Ratings

The IP (Ingress Protection) rating is a two digit code given to a piece of electrical apparatus that indicates the degree of protection its enclosure provides from dust, water and impact.

1st Digit Number	Protection Against Solid Objects	2nd Digit Number	Protection Against Liquids
0	 No Protection	0	 No Protection
1	 Protected against a solid object greater than 50mm (e.g. a hand)	1	 Protected against vertical falling drops of water e.g. condensation
2	 Protected against solid objects over 12mm (e.g. fingers)	2	 Protected against water drops at a 15 degree angle from the vertical
3	 Protected against solid objects over 2.5mm (e.g. tools)	3	 Protected against sprays to 60 degree angle from the vertical
4	 Protected against solid objects over 1mm (e.g. wire)	4	 Protected against sprays from any angle e.g. splashes of water
5	 Limited ingress of dust permitted (no harmful deposit)	5	 Protected against water jets from any direction
6	 Totally protected against the ingress of dust	6	 Protected against powerful water jets and heavy seas
		7	 Protected against immersion in water (up to 30 mins between 15cm & 1m)
		8	 Protected against long periods of immersion under pressure
