

# multiplo

LED FLOODLIGHT WITH MODULAR SYSTEM

INCREASE POSSIBILITIES,

**GO BEYOND**

LIMITS!

eleva  
series

# Bidirectional modular floodlight with excellent performance

*Multiplo* is the new LED floodlight with bidirectional modular system for sports facilities, tunnels, lighting towers and large indoor and outdoor areas lighting.

Thanks to modularity it is adaptable to different application needs, always ensuring high performance.

Bidirectional modularity

Excellent performance standards

Different mounting possibilities

Less costs, more efficiency

**UP TO 1200W**

*multiplo*

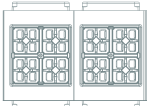

# Bidirectional Modularity

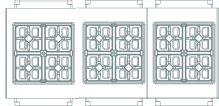

Modules can be connected to each other both along the length and along lateral side. In the "3x3" formula the floodlight reaches 1206 Watt.

**1x1**  **134 W**

**17.280 lm**  
336x237x108 mm  
5 kg

**1x2**  **268 W**

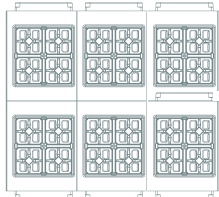

**34.560 lm**  
336x457x108 mm  
10 kg

**1x3**  **402 W**

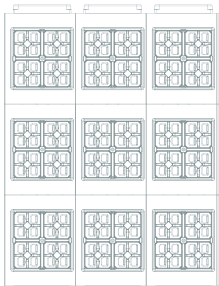

**51.840 lm**  
336x677x108 mm  
15 kg

**2x2**  **536 W**

**69.120 lm**  
619x457x108 mm  
20 kg

**2x3**  **804 W**

**103.680 lm**  
619x677x108 mm  
30 kg

**3x3**  **1206 W**

**155.520 lm**  
902x677x108 mm  
45 kg

# Technical features

Each module has its own power supply and is electrically and thermally insulated.

Power supply: 220-240V a.c. – 50/60Hz

Protection degree: IP66

Dimmable driver (optional)

Connection to emergency power supply  
DCE-DIM (optional)

Size: 336x237x108 mm

Weight: 5 Kg

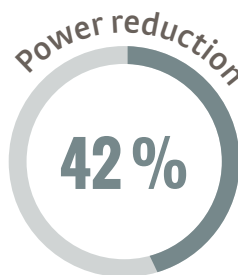

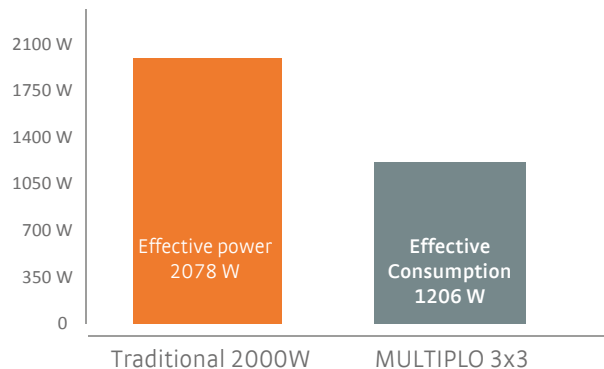

**SINGLE MODULE**

# Uniform, Efficient and Safe lighting...

...thanks to the different kinds of mounting (ceiling, wall, cable tray, lighting tower, suspension) possible by adjustable fastening systems.

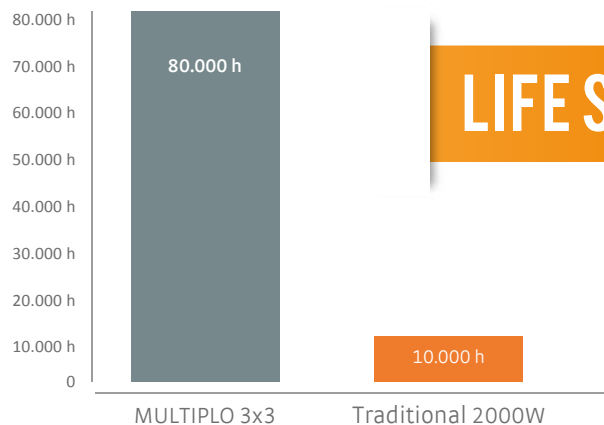

# Less costs, more efficiency

## Assistance and maintenance

Maintenance and assistance of a non-functioning module are carried out safely and without compromising the efficiency of the other operating lighting modules.

# High performance

■ **+42% efficiency**

compared to floodlights with traditional technology for the same applications

■ **+10% performance**

compared to the other fixtures of Eleva brand thanks to the absence of glass.

Niteko designs and produces LED luminaires, with latest Italian technology, for public, industrial, architectural and large areas lighting.

Technological innovation and design are guaranteed by the constant work on research and experimentation by Niteko designers and engineers.

The company guarantees products delivery within 3 weeks thanks to its own production chain located in Italy.
