Karczew 16.03.2022r.

Dear Partners

Due to the current situation on global markets, where we observe dynamic increases in the prices of raw materials from which we manufacture our products, we would like to inform you that:

- orders placed until 16.03.2022 have exhausted the stock of raw materials purchased at March prices and we are not able to accept new orders based on old Baks price lists

- orders placed from 16.03.2022 will be carried out according to valuations based on new raw material prices and will be higher than the current ones by about 20%.

- we are currently analyzing the market situation and according to the information sent on 04.03.2022, we plan to send new price lists to you by 31.03.2022.

- offers prepared until 15.03.2022 expire and require updating

- offers issued after 15.03.2022 will have a short validity period, i.e. 3-4 days

- offers for non-standard products, i.e. stainless steel, aluminum, hot-dip galvanized, varnished may have a shortened validity period due to the high dynamics of changes in the prices of raw materials necessary for their production (offers of the day)

Orders accepted for execution, placed before today, may be reduced in the absence of raw material or other components necessary for production.

We apologize for any inconvenience and ask for your understanding

Z poważaniem

Kierownik Działu Handlowego

Piotr Karpiński
