Efficiency, performance and productivity

Industrial, commercial and sports areas need robust and reliable solutions to ensure high productivity and visual comfort.

The **MACRO** floodlight satisfies the needs of these spaces and those who live there.

01 Long-lasting reliability

The excellent quality and light distribution allow workers to paly their tasks in a safe and efficient way. Moreover, the good color rendering $Ra > 80$ and the color temperature of 4000K (as in the standard version) contribute to create a comfortable spaces.

02 Cost management reduction

It is an efficient lighting solution from the energetic point of view, plus it is indispensable for cutting costs and increase productivity.
