

NITEKO
ILLUMINAZIONE

innovation in LED lighting

**High power LED Fixtures for outdoor applications
and large areas lighting**

Why Niteko?

Niteko designs and produces LED luminaires, with latest Italian technology, for public, industrial, architectural and large areas lighting.

The company guarantees products delivery within 3 weeks thanks to its own production chain located in Italy.

In 2014 Niteko has been listed by "Corriere della Sera" among the 21 Italian Startup of 1 million euro.

In 2015 the company joined the top 100 "STARTUPITALIA" and won the "*Castrum Minervae*" award.

In 2016 Niteko presented the compact modular LED floodlight, the most powerful in the international scene with its 1.200W, during the Light + Building trade fair in Frankfurt.

In 2017 it presented an ambitious project related to a LED Heatsink for LED devices made of innovative materials that can improve dissipation with considerably reduced footprints.

Designers and engineers continually work on the research and experimentation of new, technologically advanced products with innovative design

Advanced EOS Protection System

Protection system against electric over stress.
[Niteko exclusive patent]

Life time warranty

Our specialization on producing High power LED lighting Fixtures let us be sure to offer the lifetime guarantee on our lamps.

Guida XS / S / M: 3 dimensions for each need

The street fixtures Guida consist of die cast aluminium single body with wide cooling fins that guarantee diodes long lifetime.

The power supply compartment and both optical and electronic elements are thermally insulated in order to increase the lamp efficiency and life span.

The coating is resistant to corrosion, abrasion, flaking and salt mist exposition. All these features allow to guarantee high and durable performance also in case of adverse weather conditions.
