

Announcement of 25.02.2021

Dear customer of Prysmian Group Baltics AS,

We hereby announce that we are currently no longer accepting orders according to the price list, as the price of aluminum and copper has increased compared to the average price of the previous month by 7% aluminum and 14% copper, respectively. In addition, plastic prices have risen due to rising oil prices in the global market.

New orders until the updated price lists are issued will be calculated according to the daily metal price.

All valid offers are converted according to the metal price valid at the time of the order.

With respect,
Prysmian Group Baltics AS,
Chairman of the board,
Tarvo Leppik
