

JSC «PROMFACTOR BALTIC»

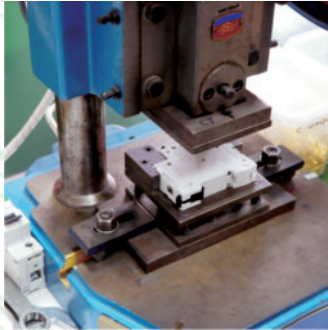

FACTOR OF YOUR SUCCESS!

Lithuanian manufacturer of low-voltage protective equipment

JSC “Promfactor Baltic” is a new manufacturer of low-voltage equipment. Our company was established in 2011 and located in the industrial “heart” of Europe – Siauliai city, Lithuania.

We produce low-voltage electrical equipment under the brand “PF” as follows:

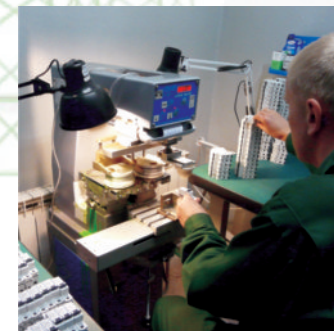

- three series of modular circuit breakers (ECO, Standart and EVO) which could be mounted on DIN-rail with current range from 1A to 125A;
- motor protection circuit breakers from 0.63 up to 80A;
- stationary circuit breakers with current range from 16A to 1600A;
- AC contactors with current range from 6A to 1000A;
- thermal relays with current range from 0.1A to 630A;
- pushbutton switches;
- control station;
- LED indicator lamps;
- limit switches.

Our company has got a wide range of certified testing and control equipment, which gives us the possibility to ensure:

- testing of each piece of product;
 - conformity with European standards.
- JSC “Promfactor Baltic” guarantees the high quality of products and provides a long warranty period with confirmation that each piece of product was passed all control tests. All our production equipment is certified.

We offer you to be our partner!

MODULAR LOW VOLTAGE DEVICES

Modular circuit breakers (1-125A)

FB1-63

FB2-63

FB3-63

Automatic shutdown devices (10-40A)

FAP1

FAP2

FAP3

Relay of protective disconnection (25-100A)

FPR1

FPR2

FPR3

Power switches (10-125A)

FSD2

MCF2

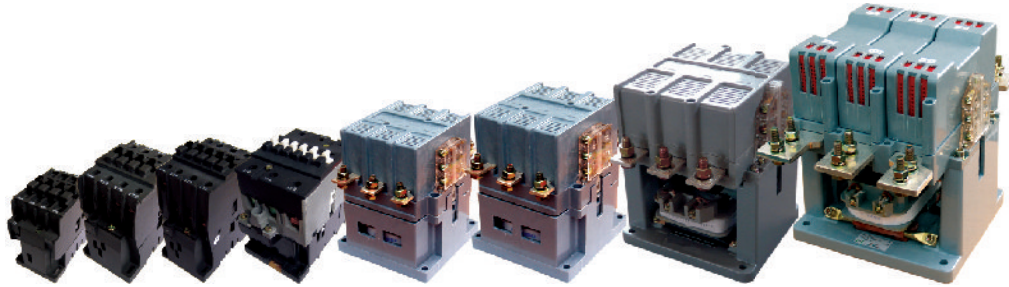

MCF3

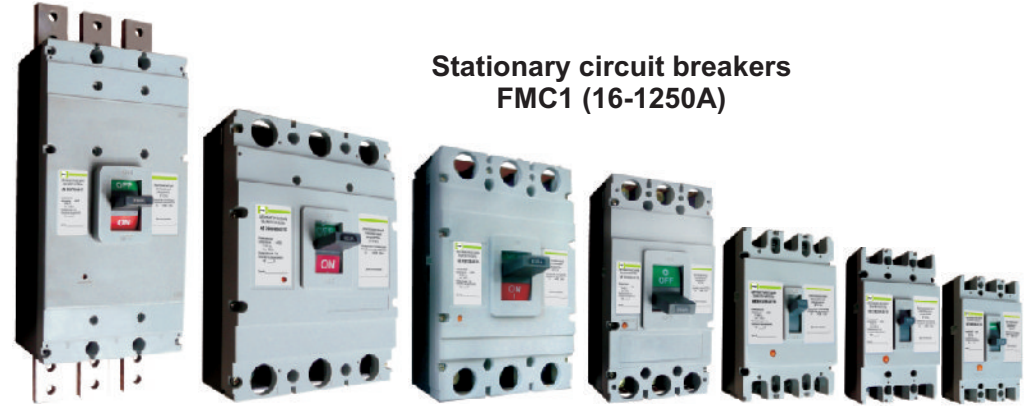

INDUSTRIAL LOW VOLTAGE DEVICES

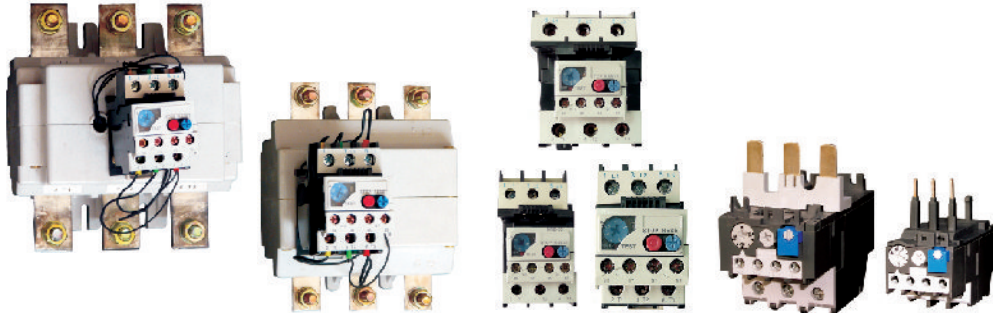

Magnetic starters
FC-1 (6-1000A)

Stationary circuit breakers
FMC1 (16-1250A)

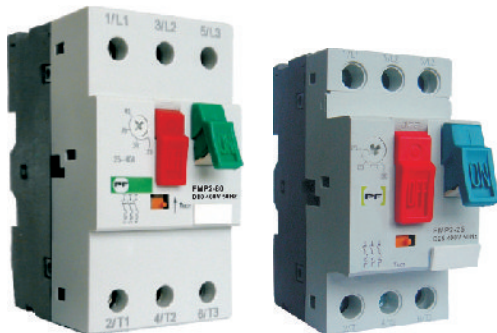

Thermal relays
FTR 2M (0.1-630A)

Limit switches
FLS15

Motor protection
circuit breakers FMP2 (0.63-80A)

LED indicator
lamps FP L

Control station
VAL P

Pushbutton switches
