

The Glamox Group

Lighting solutions

Professional lighting solutions

Glamox develops, manufactures and distributes professional lighting solutions for the global market.

We are committed to meeting customer needs and expectations by providing quality products and solutions, service and support.

A global company

The Glamox Group is among the largest lighting companies worldwide, with sales and production companies in several European countries, as well as in Asia, USA and Canada.

We operate in more than 60 countries through a network of our own sales companies, agents and distributors.

Mission statement

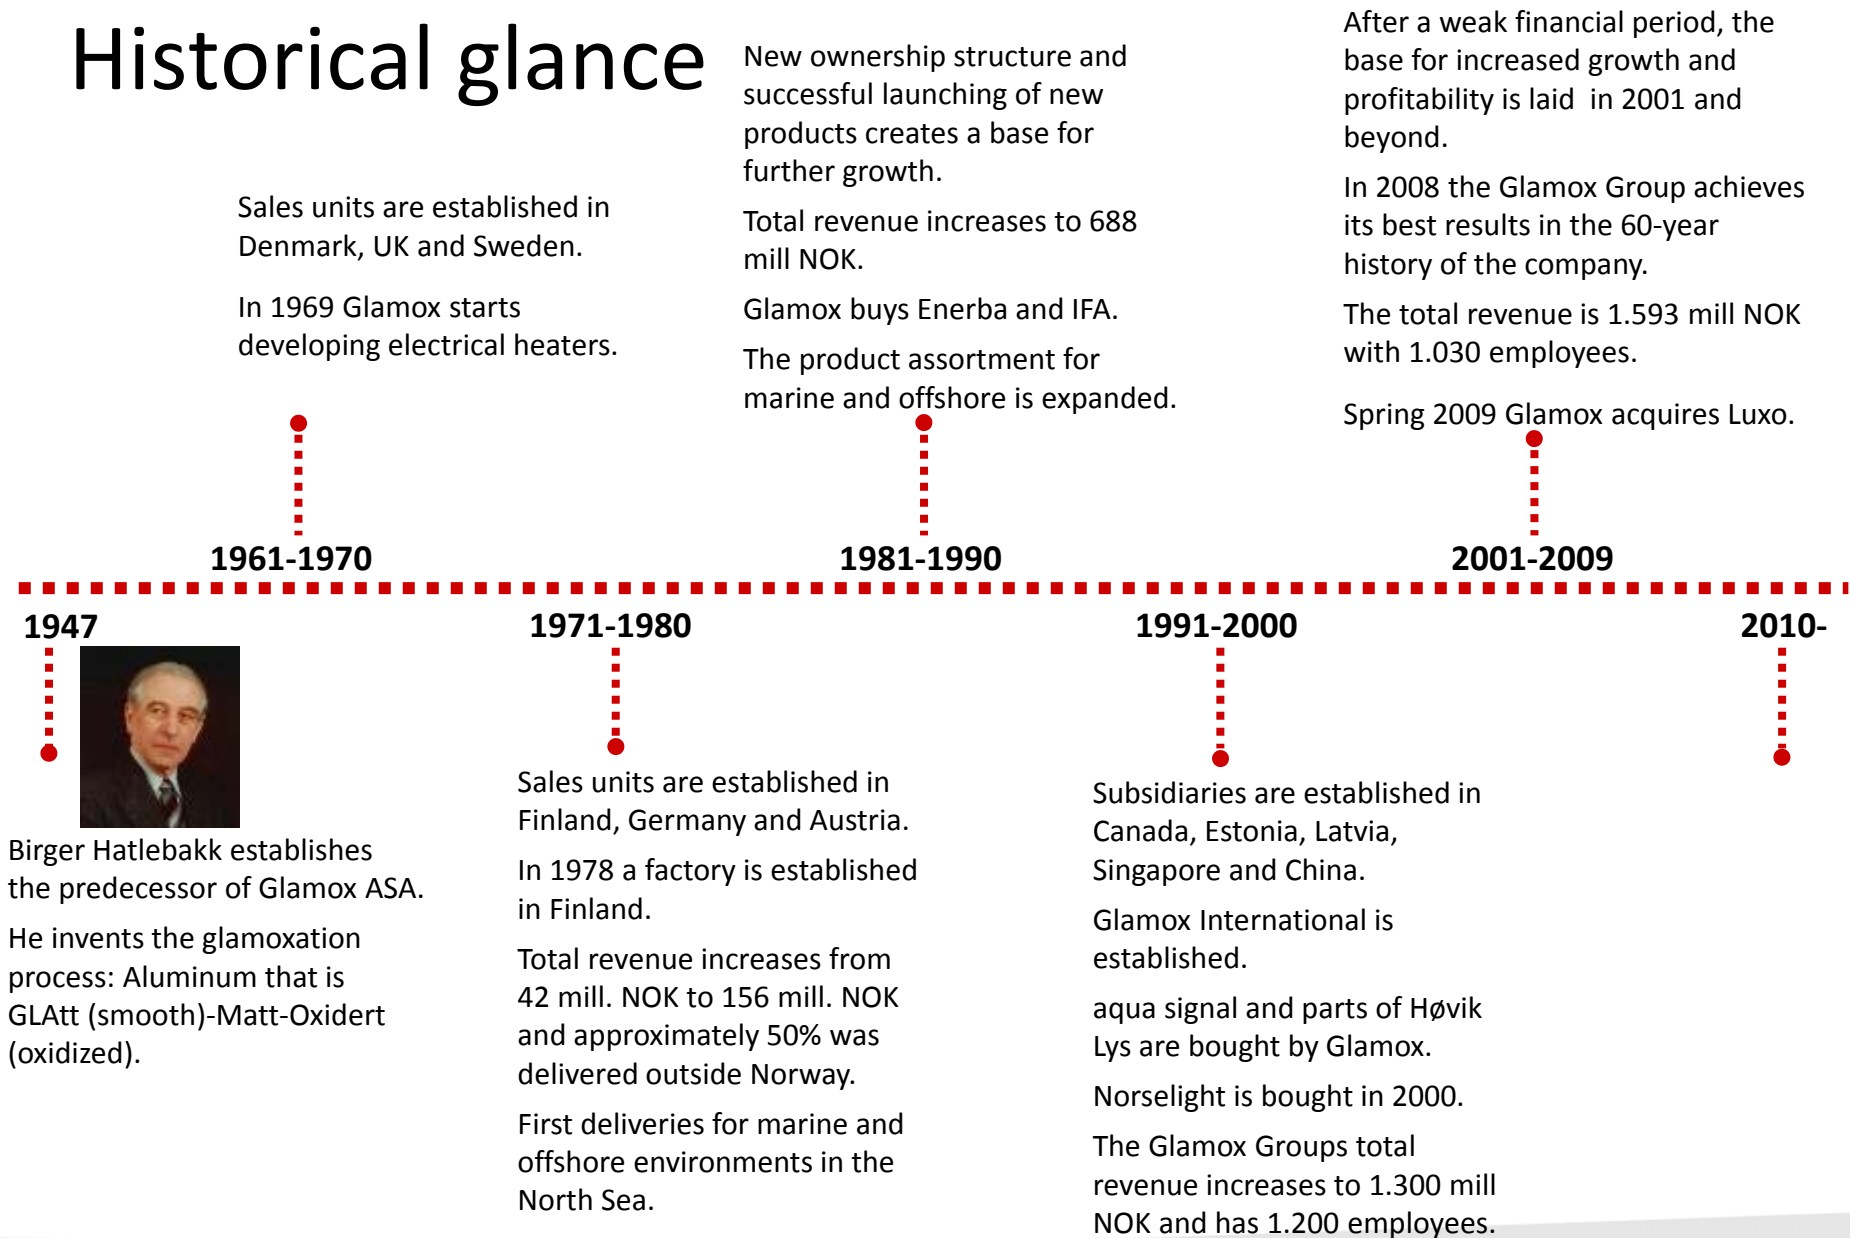

To be a solution oriented preferred supplier of lighting to defined market segments.

Our product brands

Glamox is a leading lighting brand for professional markets, onshore and offshore, established in 1947. The wide assortment of Glamox products is of superior technical quality, and available for a wide range of applications – including challenging environments.

For more than 75 years Luxo has designed mainly arm-based innovative, ergonomic lighting products. Luxo products improve lighting conditions, taking particular care of individual needs.

Since 1876, decorative Høvik Lys lighting products, made with high quality materials and with exclusive finishing details, have graced elegant buildings and vessels with their pleasant light.

Aqua Signal has been delivering top-of-the-line marine lighting solutions since before the age of electricity, providing lighting products designed and manufactured to meet all relevant standards for quality and performance at sea.

Norselight delivers added safety and security by providing quality search light systems that work reliably even under the most extreme conditions.
