13	Connector on a TS35, protective PE, 15-pole, 15x16mm ² , green	870S/15	89815005
14	Connector on a TS35, neutral N , 24-pole, 20x16mm ² + 4x25mm ² , blue	870N/24	89816003
15	Connector on a TS35, protective PE, 24-pole, 20x16mm ² + 4x25mm ² , green	870S/24	89817005
16	Modular voltage indicator 400V, 3 -phase, on a TS35 rail	IFS-47/WN2	85133002
17	PDM60Z and PDM60W extension rings are used to deepen multipole boxes from Multiwall and Multibox2 series. They are fixed to the body of a box with screws. Rings can be shortened by cutting off their ribs, every 6 mm. Just like boxes, rings can be closed with PM1 and PM2 covers. While plastering works, PS1 and PS2 signaling covers can be used.
