OptiLine & Altira with KNX

It's the famous click-in
with a green twist

The Click-in technique made OptiLine and Altira famous for being a fast, flexible and very time-saving installation system. By adding the KNX functions you'll now reach yet another dimension of convenience and smartness: Energy efficiency!

OptiLine & Altira Click-in system give you total access and full control at an arm's length. At every desk and table. Extendable in just a few hours.

Efficient use of the customers' energy. And yours!

Even if you don't think about it when installing it, an installation system concerns a lot of people. First it's planned by someone, but usually paid for by another. Then some other person probably owns it, while another is using it everyday. But do any of them have the overall experience to choose the installation system that is best equipped to meet all their needs? No!

But as an installer, you do. So in the name of energy efficiency, share your knowledge. Tell planners and property owners that OptiLine is the only system flexible enough to manage changing needs. Expanding or shifting it is done in no time and pieces are re-usable. The person who's paying will be glad to know that OptiLine has a future-proof construction, making it a wise investment. And users will love how OptiLines provides easy access to power and IT, at the same time as KNX monitors consumption and the cost of energy.

Trunking

On the wall, high up or right down? Install our trunking wherever it suits your needs. Choose between several sizes in PVC or aluminium.

Poles

Poles make the installation truly flexible for the end-user. Just move around power and networking as it pleases you!

Floor boxes

OptiLine includes smart solutions for stationary floor installations with plastic floor boxes, robust and easy to install.

Posts

Let power and networking be supplied under the floor, while giving the accessibility through stable and easy-to-mount outlet posts.

Furniture boxes

For premium access and design, choose from our wide range of flush mounted, turnable or pop-up service boxes.

By adding some KNX thermostats to the OptiLine system you'll get the optimal indoor climate. Since it's monitored locally from several places, heating and cooling will be perfectly adjusted.

Energy Efficiency

A KNX thermostat can be installed at an optional place in your OptiLine installation system to ensure a comfortable temperature in each room. Since it's just mounted in the OptiLine front, it's easy to move around if needed.

OptiLine & Altira – the Click-in system for commercial buildings. Modular, flexible and energy efficient. Full of clever details. Easier to install and upgrade – so offices, hotels, receptions, shops and schools can have full access in a quicker and safer way. And, not least, energy saving with products like thermostats, movement detectors and dimmers.

OptiLine 45

Full access...

Anywhere in the room

Poles offer a very flexible solution. The free-standing poles are movable within a radius of 1.5 metres from the connection point in the ceiling.

The 45 direct Click-in installation system

Direct click-in wiring devices

Altira offers a broad range of outlets, switches, VDI-outlets, electronics and KNX-products.

In or on desks

Service boxes, movable or "invisibly" integrated in the desk, give high-capacity close to the user.

On walls

Trunking for all needs in aluminium or PVC. A cost-efficient installation with high capacity.

In floors

Floor boxes create access in the whole room and are "invisible" when not in use.

On floors

Posts give a neat and efficient installation on all types of floors.

Homogeneous design

Altira wiring devices can also be installed in or on walls to get a homogeneous design in the whole room.

A full range 45-system that brings the best of reliability, style and slimmed design together. Easy and quick installation with direct click-in of Altira wiring devices.

Flexible solutions

Installation solutions for ceilings, walls, floors and desks. Easy to update and adapt to future needs.

Smooth design

Perfect fit and final result. Smoothly rounded shapes. Design and colour match with Altira.

Environment-friendly

Only lead-free and cadmium-free materials are used. Most products are also halogen-free.

Easy to install

Click-in, tool-less installation of accessories and Altira products.

Energy efficiency

By adding some KNX thermostats to your OptiLine system you'll get the optimal indoor climate. Since it's monitored locally from several places, heating and cooling will be perfectly adjusted.

OptiLine 70

Full access...

Anywhere in the room

Poles offer a very flexible solution. The free-standing poles are movable within a radius of 1.5 metres from the connection point in the ceiling.

The universal Click-in installation system

For all types of wiring devices

The OptiLine 70 products are universal and can be fitted with Altira 45x45 modules, c/c 60 wiring devices or DIN-modules by means of adaptors.

On desks

Service boxes, movable on the desk or hanging from under it, give high capacity close to the user.

On walls

Trunking for all needs in aluminium or PVC. A cost-efficient installation with high capacity.

On floors

Posts give a neat and efficient installation on all types of floors.

Homogeneous design

The OptiLine 70 adaptors make it possible to use Altira coloured cover frames for walls also in e.g. the trunking.

A universal and very flexible system with a spacious 70 mm front opening. Use the adaptors to fit Altira or any type of wiring device. The clever adaptors and boxes give increased safety and several installation benefits.

Secure adaptors

Adaptors with a very secure click-in interface. Nice final result and improved pull-out force.

Safe and reliable

High-quality materials. Technically advanced. Follows all standards.

Clever boxes

Easy strain relief. Easy to create loop-through for 3-phase distribution. Easy to terminate shields.

Easy to install

Click-in, tool-less installation of accessories and Altira products.

Energy efficiency

A KNX thermostat can be installed at an optional place in your OptiLine installation system to ensure a comfortable temperature in each room. Since it's just mounted in the OptiLine front, it's easy to move around if needed.

Altira

Click-in to the future

With Altira, all functions are available in the 45x45 mm standard. Just one reference number, delivered in one piece and installed in one move. This is the easy way, leading you quicker to the future. With a click.

The 45 Click-in wiring device system

A range for all needs

Altira offers more than 300 wiring device items including socket-outlets, data sockets, KNX-products and electronics like thermostats, movement detectors, dimmers and timers.

Altira means modularity, speed and a secure installation

Direct click-in

Altira means direct click-in – OptiLine 45 system.

P93234

Universal

Altira means universality – OptiLine 70 system

P94561

Wall installations

Altira means wall installations – Altira system

P94560

Energy Efficiency

The KNX wall panel is a nicely designed and convenient control from which you can operate all functions and electricity in your office.

P91087

P94335

P117858

Use the Altira multi-purpose range for direct click-in in OptiLine 45, with adaptors for OptiLine 70, or for flush or surface mounting on walls. As today's commercial buildings live with constant change, Altira is a perfect companion. With the KNX-products, energy will be saved as well.

Comfort and safety

Dimmers, movement detectors, thermostats, timers, KNX units... Discover Altira's wide range of products for increased comfort and safety.

Tool-free connection

Power: Just strip the wire and insert it. VDI: Easy and fast termination by IDC. Done-and-safe in one move!

P90693

Innovative features

Uniquely Altira: the tamperproof features and the interconnection pieces.

Mix and match

Uniquely Altira: 18 colours to choose from, to add distinction to the installation.

Focus on design

Altira's pure and modern design matches perfectly – in colour, gloss and shape – all OptiLine products.

Altira for walls

Full access...

Blending in

Altira's pure and modern design matches the interior in all types of rooms perfectly.

P64480

Flush or surface Click-in 45 system

P07387

Comfort and safety

Dimmers, movement detectors, thermostats, timers... Discover Altira's wide range of products for increased comfort, safety and energy efficiency.

Homogeneous design

Altira brings a homogeneous style to the whole room – in walls, on walls and in any OptiLine product.

Energy efficiency

The KNX wall panel is a nicely designed and convenient control from which you can operate all functions and electricity in your office.

Flush or surface wall mounting means total compatibility. The click-in system means faster work. Combine the 300 Altira modules with the KNX controls and get a slick and smart final touch.

Colourful

Match any interior. Or create an accent. With Altira's choice of cover plates in 18 appropriate colours, you can always add distinction to the installation.

Simple to install

Use flush or surface mounted boxes. Use claws or screw fixings. Use the tool-less click-in system. Now you've discovered why Altira is so simple to install.

Altira wiring devices

P03835

Dedicated to the 45 x 45 standard

Each function is available for the 45 x 45 mm standard: just one part number, delivered in one piece and installed in one move. Turn a switch into a push-button, install a switch in a 21 mm depth box, connect an RJ45 socket directly to the front panel, interconnect several socket-outlets... everything is thought out to make installation and upgrading easy.

P126331

Designed to click-in directly

Altira is a series of wiring devices for direct click-in into OptiLine 45 trunking, poles, posts, floor boxes and service boxes. In the OptiLine 70 range, an adapter is used.

Compatible with all installations systems on the market

Combined with a clever plate and frame, all Altira inserts can be installed in all installation systems on the market, both surface and flush-mounted. The choice of cover plates from an assortment of 18 appropriate colours adds distinction to installations.

P126345

Altira wiring devices

PS1636

Double and triple socket-outlets

- b Reliable interconnection of socket-outlets by an inter-connection piece for more devices per linear meter: all combinations are possible: 2 + 2, 2 + 3, 3 + 3 or more...
- b With reduced 45 mm-unit space requirements, the sockets can be juxtaposed precisely. No space is created, so no trunking covers to be cut.
- b Socket and socket-outlet variants:
 - v with red-Colour mechanical and visual tamperproofing to differentiate specific circuits
 - v with indicator for visual signaling of circuits.

P00581

Rotoclip socket-outlets

Just one socket, and one part number, to be installed, both straight and slanted. Straight for a traditional flush and surface mounting stand alone function. Slanted mounting makes it easy to insert angled plugs into floor-level trunking and is especially required for when socket-outlets are installed in poles and posts, together with other functions: 2P+E sockets, RJ45 sockets, switches ...

P00577

- Earth pin positioning in poles:
- b Slanted to the right
 - b Straight horizontal.

P00576

- Earth pin positioning in trunking:
- b Straight vertical
 - b Slanted to the left.

P00581

- b Sturdy sockets, easy to keep clean
- b Excellent holding strength provided by mechanical latching.

PA4026

- b Fast, tool-free connection and disconnection of current sockets.
- b Simple and practical: just strip the wire and insert it.
- b Dual opposite terminals per polarity for easy cable running in trunking and mounting in boxes.

P124947

Switches and push-buttons

P124965

A standard switch can easily be transformed into a push-button thanks to a simple spring mechanism and positioning aid tool.

P124966

Test points on the front face allow easy testing without disassembling the device.

P124963

Ergonomic screwless terminals with cabling diagram on the back, for fast and reliable connection. Only terminals you need are open.

P124968

Switches and push-button can be easily illuminated with indicator lamp accessory.

P124970

Switches and push-button low profile frees-up space in the junction box for easy cabling.

P121600

RJ45 connector: cabling is now twice as fast

The innovative RJ45 is easy to handle and cable, with intuitive connections that save you time. The connector is available for Categories 5e, 6 and 6A applications.

P121997

Ready...
Insert the cable in the central U-shaped entry.

P121920

Steady...
Close the smart bridle. It will automatically lock the cable and provide 360° earthing.

P121999

Done!
Shut the connector. A "click" confirms that it's locked into its firm and reliable position.

P30695

TV/FM socket-outlets

b Easy convenient coaxial cable wiring.
b The coaxial cable can be screwed directly onto the free 360° rotary connector.

Altira for antibacterial applications

Antibacterial offer to avoid transmission diseases

With the addition of silver ions, the antibacterial offer is protected against germs and bacteria in order to prevent transmission. In 24H, more than 99,9% of all bacteria are gone.

b All advantages at a glance:

- ✓ Easy to identify: the antibacterial commercial references start with ALB47XXX.
- ✓ Environmentally friendly due to the use of non-hazardous materials
- ✓ Long-lasting protection and increased security against viruses, bacteria and yeast fungi
- ✓ A sustainable solution thanks to its long-term effectiveness

✓ With various functions, antibacterial material for Altira offers good solutions for all applications.

✓ The antibacterial material makes this offer different from standard material and more clear to identify thanks to its new colour, the polar white.

20 VA 300 VA				ELV lamps with toroidal transformer
20 VA 350 VA				ELV halogen lamps with electronic transformer
		400 VA 1-10 V		230 V AC fluorescent tube, Ø 26 or 38 mm with 1-10 V electronic ballast 36 W with 10 electronic ballasts (1-10 V) 2 x 16 W, Ø 26 or 30 mm with 5 electronic ballasts (1-10 V) Maximum control of 50 electronic ballasts (1-10 V) with an external relay
20 W 200 W				230 V AC fans
20 W 350 W				230 V AC convectors
			60 W 600 W	230 V AC motors
Installation				
Installed in place of a switch				
May be controlled by push-buttons: up to 25 push-button without indicator lamp in the surrounding area				

white: RAL9011; polar white: RAL 9003

Movement detectors

Movement detectors 180°

Automatically control switching on lights in passageways:
 b Detection angle: complete 180°, partial 90° left or right
 b Detection area: 9 x 18 m
 b Presence area: 6 x 12 m (movement ± 10 cm, 1 m/s)
 b Time delay adjustable from 2 s to 20 min.
 b Light threshold adjustable from 5 to 10000 lux
 b Installation height: 1.20 m and 2.15 m
 b Protection degree: IP20

Data sockets

- RJ45 LexCom and infraplus data sockets with dismountable connector.
- b RoHS compliant.
- b Wide range of connectors to fit all the needs, available in:
 - v categories 5e, 6 and 6A,
 - v unshielded and shielded versions:
 - unshielded versions for U-UTP cables,
 - shielded versions for F-UTP / U-FTP / S-FTP cables.
- b Easy integration and mounting into cover plates.
- b Cover plates fitted with retractable shutter and label-holder with label.
- b Free choice of the position of the socket for all installation systems (poles, trunking...).

RJ45 LexCom data sockets with Actassi S-One connectors

- b A guarantee of performances.
- b Easy and reliable wiring without any specific tool.
- b Visible wiring colour code on the connector.
- b Faster cable termination by clipping.
- b Compact Form Factor.

Introduction

- b The following Altira control devices have to be connected to KNX bus line.
- b The KNX bus line is laid in parallel to the 230 V power supply.
- b When Altira sensor is activated (for example, a push-button), an actuator (e.g. the roller shutter control) will carry out all the switching commands required.

Controls

Push-buttons

Push-buttons - with screwless bus connecting terminals

Type		Colour	Ref. No.
2 buttons and 2 blue status LEDs	b With set of 10 symbols: v 2x symbol with light opening, v 1x symbol "1", v 1x symbol "0", v 2x symbol for dimming, v 2x symbol for shutter, v 2x symbol (neutral).	white	ALB45150
		aluminium	ALB46150
		polar white	ALB44150
4 buttons and 4 blue status LEDs	b With set of 20 symbols: v 4x symbol with light opening, v 2x symbol "1", v 2x symbol "0", v 4x symbol for dimming, v 4x symbol for shutter, v 4x symbol (neutral).	white	ALB45151
		aluminium	ALB46151
		polar white	ALB44151
2 buttons, blue status LED and Infra Red (IR) receiver	b The status LED is located under the symbol window. The functions of each of the button can be triggered using an IR remote control. b The push-button is pre-programmed for operation with a IR remote control(ref. No. MTN570222). Many other IR remote controls (e.g. existing TV or CD player remote controls) can be taught into the push-buttons.	white	ALB45152
		aluminium	ALB46152
		polar white	ALB44152

KNX software functions: Switching, toggling, dimming (single/dual-surface), blind (single/dual-surface), pulse edges trigger 1-, 2-, 4- or 8-bit telegrams (distinction between short and long operation), pulse edges with 2-byte telegrams (distinction between short and long operation), 8-bit linear regulator, scene retrieval, scene saving, disable functions.

Infra Red (IR) remote control for IR push-button receiver

Type		Colour	Ref. No.

Comfort controls

Movement detector 180° - with screwless bus connecting terminals

Type	Colour	Ref. No.
When a movement is detected, a data telegram defined by the programming is transmitted. b Two movement sensors: the sensitivity and range can be set separately for each sensor b Detection angle: 180° b Installation height : 1 m to 2.5 m b Detection area at 2.15 m mounting height : Approx. 9 m on all sides, adjustable in 10 steps (rotary switch or ETS) b Detection brightness: Infinite setting from approx. 10 lux to approx. 1000 lux (rotary switch) or from 10 lux to 2000 lux (ETS) b Overshoot time: Adjustable in 6 steps from approx. 1 s to approx. 8 min (rotary switch) or adjustable from 1 s to 255 hours (ETS) b EC guidelines: Low-voltage guideline 2006/95/EEC and EMC guideline 2004/108/EC	white	ALB45153
	aluminium	ALB46153
	polar white	ALB44153

KNX software functions: 5 movement blocks: up to 4 functions can be triggered per block.
Telegrams: 1 bit, 1 byte, 2 bytes.

ALB45153

Temperature control unit - with screwless bus connecting terminals

Type	Colour	Ref. No.
b With display and 4 buttons b 2-step control, continuous PI controller, switching PI controller (PWM) b Output: continuous in the range 0 to 100% or switching ON/OFF b Controller mode: v Heating with one controller output v Cooling with one controller output v Heating and cooling with separate controller outputs v Heating and cooling with one controller output v 2-step heating with 2 control outputs v 2-step cooling with 2 control outputs v 2-step heating and cooling with 4 control outputs b Operating modes: Comfort, comfort extension, standby, night reduction, frost/heat protection Move all setpoints, save all setpoint temperatures and operating modes when reset, external temperature monitoring, additional output of the control value as 1 byte value on the PWM.	white	ALB45154
	aluminium	ALB46154
	polar white	ALB44154

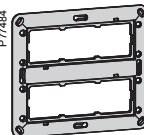

For more information on functions and products in association with KNX go to Schneider Electric KNX catalogue.

Multifix Plus

Installation boxes

Multifix Plus is the family name of the new sturdy, inventive and yet cost-efficient range of installation boxes from Schneider Electric. The clever design, quick installation and many functions are among the most winning Multifix Plus characteristics.

Another valuable features is the wide range of models, allowing you to find exactly the right device for your every need, such as single, double, triple or multi boxes to be mounted in hollow or brick walls, or in the ceiling. And last but not least – the Multifix Plus range is conveniently presented – many of the items can be ordered in pre-packed kits.

Speed

At Schneider Electric we always think about saving your time. Each one of the Multifix Plus components is therefore designed to speed up your work. Our kits, special tools and triple-threaded screws are some good examples of how this thought shapes our products.

Two depths

Choose the 40 mm box if the walls are shallow. Or the 50 mm box to fit more cable for bigger installations, or bigger electronic devices.

Horizontal or vertical

We have horizontal and vertical boxes. Note the separation wall. It's always included, so there is no need for extra "shopping" if your installation is a mix of power and low voltage.

All in one!

This six-station apparatus box is a smart choice if you want a compact and centralised panel installation.

Pre-packed kits

The Multifix range offers several pre-packed kits, most also including a DCL outlet. Convenient, time saving and easy to order since all kits have an ordering number of their own.

40, 67 or 85 mm

The Multifix Plus range is really complete. For most jobs the 67 mm box is the best choice. For connection points and kitchen stove installations, use the 85 mm box, approved for 20A and 32A outlets. It has extra space to contain a large amount of cables. The 40 mm box is perfect for smaller applications.

Single, double or triple

You will surely find a box to match your needs in the Multifix Plus range.

A bright idea

Our smart DCL ceiling box kit includes everything needed; cover, IPX4 DCL outlet with blanking plate, hook, suspension chimney, lighting plug with B22 base for a temporary light bulb and a DCL-plug 2 PE.

The art of hole-making

The finish reveals the craftsmanship. Or the fact that you have discovered our special hole saws; a great tool which drills exact and sharp holes designed for the Multifix Plus range.

Don't be fooled by the lean and minimalistic design – these installation boxes are all jam-packed with innovations and ingenuity! Even if they may just look like pieces of blue plastic, every detail has its specific purpose aimed to make your job faster, easier and more professional. Look closer at these boxes to discover all the smart details.

Easy mounting/dismounting

The smart expanding claw construction together with the non-loosable screws does also provide reversability. If you have to correct the installation, you can easily remove the box without damaging the wall, and re-use it again. No loss of fixing parts.

Meets the EN standard

The whole range meets the EN standard IEC 60670-1.

It's sturdy and flame proof

The box is made of polystyrene. It's rigid, reliable and will not crack. Tests have shown it will keep its shape and full function up to 60° and down to -5°C.

The Multifix Plus boxes are all flame-proof. This means that they have "survived" the 850°C glow wire test.

The perfect grip

The 67 mm single boxes have universal fixing claws with multiple function. The expanding construction and sharp-end claw creates a firm grip in hollow board walls as well as in brick walls. And no need to be tender handed; the screw is torque resistant and the claw is made of steel instead of plastic.

Fast and clever screws

The screws are "high-speed" i.e. triple-threaded. This will make the assembly 3 times faster. Each screw has a built-in stop end to prevent the loss of claws, which makes the box re-usable.

All kinds of walls, wiring devices and frames

The long screws make the boxes suitable for any type of wall, regardless of its thickness. The 60 mm fixing centers fit most wiring devices and handle both horizontal and vertical mounting frames. Three alternative fixing holes for the wiring device ensures a perfect end result.

Knock-outs

Six knock-outs for conduits in the single boxes. The knock-outs are easily removed by hand giving a clean cut. So forget about sharp edges and burrs that cause injuries!

Anti-rotation system

The single boxes have four wings that ensure a perfect grip in all walls. Prevents unwanted rotation of the box.

Double box

The two holes in the bottom are for marking where to drill. Once you have drilled the two holes you can easily cut away the needed hole in between with a knife.

The double box has a built-in separation wall that can be removed if needed.

Hides imperfections

The wide and thin collar around the box hides any small mistakes in the hole making. Thanks to its thin construction it will also minimize the gap between the wiring device and the wall.

Mounting of ceiling box

Mounting principles of ceiling DCL box with suspension chimney and griples suspension kit.

Multifix Air

Airtight installation boxes

The Multifix Air range consists of airtight installation boxes for flush mounting in hollow walls. It includes two single boxes and one double box, which are designed to meet the highest demands for energy saving.

Wide but thin collars hide eventual imperfections. The double box has a slightly narrowed center part, decreasing the need for larger hole making. You will also find that a number of Multifix Plus accessories are compatible with the Multifix Air range.

Furthermore, the Multifix Air boxes are resistant to changing temperatures and can be used in most environments. Metal parts are zinc-plated to minimize the risk of corrosion.

The ingenious use of elastic membranes with an integrated knock-out is among the clever inventions that prevent air leakage. The membrane fits tightly around the conduit or cable, yet allows a high degree of flexibility, which makes the installation robust and enduring. All knock-outs are pre-marked and easily opened with just the conduit or cable.

Speed

At Schneider Electric we always think about saving your time. Each one of the Multifix Air components is therefore designed to speed up your work. The elastic sealing membranes, special tools and triple-threaded screws are some good examples of how this thought shapes our products.

Two depths

Choose the 40 mm box for ordinary devices. The 50 mm box can be used to make bypass connections behind the device or to install deeper devices.

Single or double

You will surely find a box to match your needs in the Multifix Air range.

Accessories

The smart hole saw, the box covers, DCL plugs and outlets, are some of the Multifix Plus accessories which are also perfectly compatible with the Multifix Air range.

The art of hole-making

The finish reveals the craftsmanship. Or the fact that you have discovered our special hole saw; a great tool which drills exact and sharp holes designed for the Multifix Air range.

Tests with 50 boxes in an air pressure of 50 Pascal show a total leakage of 118.0 m³/h for standard boxes, as compared to 5.7 m³/h for Multifix Air. Thus, Multifix Air reduces the air leakage by 95% as compared to standard installation boxes.

Multifix Air reduces air leakage with 95%

Multifix Air is really an energy efficient solution. The boxes reduce the air leakage by 95% compared to standard installation boxes! This means that conditioned or heated air will stay indoors instead of leaking out, giving considerably reduced costs for the house owner.

Don't be fooled by the lean and minimalistic design – these installation boxes are all jam-packed with innovations and ingenuity! Even if they may just look like pieces of plastic, every detail has its specific purpose aimed to make your job faster, easier and more professional. Look closer at these boxes to discover all the smart details.

Easy mounting/dismounting

The smart swivel construction together with the non-loosable screws also provide reversability. If you have to correct the installation, you can easily remove the box without damaging the wall, and re-use it again. No loss of fixing parts.

Meets the EN standard

The whole range meets the standard EN 60670-1.

It's sturdy and flame-proof

The box is made of polypropylene. It's rigid, reliable and will not crack. Tests have shown it will keep its shape and full function up to 60° and down to -5°C. The Multifix Air boxes are all flame-proof. This means that they have "survived" the 850°C glow wire test.

Double box

The V-shaped marking notches in the collar show you where to drill. Once the two holes are drilled you can easily cut away the material in between with a knife. The slim waistline will ease your work even more.

The double box has a built-in separation wall that can be removed if needed.

Hides imperfections

The wide and thin collar around the box hides any small mistakes in the hole-making. Thanks to its thin construction it will also minimize the gap between the wiring device and the wall.

Flexible but firmly fixed

Thanks to the airtight elastic membranes, each installed conduit or cable is safely fixed in its place, and yet flexible enough to adjust to the wanted position.

Fast and clever screws

The screws are "high-speed", i.e. triple-threaded. This will make the assembly 3 times faster. Each screw has a built-in stop end to prevent the loss of claws, which makes the box re-usable. Since the claw is made of metal you can use a power tool.

All kinds of walls, wiring devices and frames

The long screws make the boxes suitable for any type of wall, regardless of its thickness. The 60 mm fixing centers fit most wiring devices and handle both horizontal and vertical mounting frames. Three alternative fixing holes for the wiring device ensures a perfect result.

Knock-outs

The membranes have knock-outs suitable for a conduit diameter of 16–20 mm or 20–25 mm. No tools are needed, just push the conduit through the membrane. Cables with a minimum diameter of 9 mm can also be used, but only in the 16–20 mm knock-outs.

Anti-rotation system

The single boxes have four wings that ensure a perfect grip in all walls and prevents unwanted rotation of the box.

OptiLine 45

The 45 direct Click-in installation system

Electrical, telephone and data installations must be easy to install, safe to use and flexible enough to ensure that changes are easy to make. The design of the visible parts must also set the right tone in the office.

OptiLine 45 direct click-in installation system provide integrated installation solutions for ceilings, walls, floors and desks. Together with Altira wiring devices, solutions are created that fulfil the most stringent demands for function, design, convenience and safety.

Direct click-in installation system

- 45 mm front opening
- Direct click-in of Altira 45x45 module wiring devices which gives optimal function and design.

Environment-friendly

- Only lead-free and cadmium-free PVC is used
- The aluminium range offers a halogen-free alternative, including accessories.

Altira 45x45 module wiring devices

Altira is a wiring device series suitable for direct click-in in OptiLine 45 trunking, poles, posts, floor boxes and service boxes.

Range

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Main benefits

- Optional mounting direction for correct user interface in both trunking, poles and posts
- Connection piece for simple interconnection of double and triple outlets without space between
- 45° terminals. Easy to connect even though the outlets are close together
- Dual input and output terminals. For easy loop-through of additional connections such as earthing of trunking.

Trunking

A cost-effective installation with high capacity.

The range

Available in PVC or aluminium with one, two or three compartments.

Main benefits:

- Easy installation without the need of instructions. Accessories are mounted directly without adaptation
- 55 mm depth. High cable capacity and space behind the wiring devices
- Pre-punched slots in the partition walls of the PVC trunking. Easy to make holes or openings to feed cables between the compartments
- Trunking base and cover packed together, but not assembled. Easy handling
- Extra-secure click-in function and front locking clip. Gives improved pull-out force.

Poles

The best solution for a truly flexible office, with power, telecom and data services close to the workplaces. Fed from the ceiling, preferably from connection boxes. Free-standing and movable poles give extra freedom. A pole can be moved within a radius of up to 1.5 metres from the connection point in the ceiling.

The range

Available in aluminium, free-standing or tension-mounted. One or two-sided, or with four boxes.

Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and slender form
- Stable, sturdy design. Several parts are cast
- Movable poles have steady feet. The rectangular foot also allows poles to be installed back-to-back or against a wall
- The adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools. Spring-loaded. Total working range of 400 mm
- Cable separation profile gives the correct spacing between VDI and power cables.

Posts

For power, telecom and data installations close to workplaces, on raised access floors, on screeded floor boxes in concrete floors or on in-cavity floors. Can also be used with other floors, in which case they are supplied via a floor feeder or a floor grommet.

The range

Available in aluminium in one and two-sided versions.

Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and compact form
- Stable, sturdy design. Several parts are cast
- Accessories for above-floor supply
- Cable separation profile gives the correct spacing between VDI and power cables.

Floor boxes

For power, telecom and data installations close to workplaces, in raised access floors, screeded floors or in-cavity floors. Used, for instance, in environments where it is important to have an installation that is discreet and "invisible" when not used.

The range

Available in three versions with pre-mounted mounting frames. The range also includes floor access boxes and screeded floor boxes.

Main benefits:

- Quick and easy installation
- Both single and double outlets can be mounted in the mounting frames
- Quick-fix fastening for all floors over 10 mm thickness
- The height of the mounting frames is adjustable in 5 mm steps. This gives optimal capacity and makes it easy to install DIN-modules and outlets on different levels
- Complete offer including floor trunking.

Service boxes

Flexible solutions for the supply of power, telecom and data to desks in offices and conference rooms. The boxes can also be used as connection points in the ceiling for feeding of poles.

The range

Five box types, all in natural anodised aluminium:

- A six-sided pop-up box, pre-wired with outlets, a LAN switch, cable and plug
- A mini pop-up, empty
- A turnable and smoothly rounded one-sided box. Pre-wired with outlets, cables and plugs. One version with integrated LAN and AV switches
- A one-sided box, pre-wired with outlets, cables and plugs, pre-defined with outlets, or empty. Terminal or with Wieland interface.
- A flip-up box for flush mounting in desks, empty.

Main benefits:

- The range covers many applications
- Many mounting options including concealed installation
- All products in aluminium and metal – high finish and impact resistant
- Ceiling cable feeder – flexible solution also for movable desks.

OptiLine 45 Trunking Presentation

Installation trunking with 45 mm front opening for direct click-in of Altira wiring devices

OptiLine 45 trunking are available in lead- and cadmium-free PVC or aluminium with a 45 mm front opening. All trunking are 55 mm deep, which gives a high cable capacity and space for cables behind the wiring devices. One of the main advantages is the easy installation. The design is symmetrical and all accessories are click-in mounted without any need of adaptations. It is also very easy to create cross sectional feeding of the cables in the PVC trunking thanks to the pre-punched slots in the partition walls.

Dedicated installation fixings and an extra-secure click-in function for the front and Altira wiring devices give a very reliable installation.

Also the handling is easy. The trunking base and cover are packed together, but not assembled.

Altira 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Altira 45x45 module wiring devices which gives optimal function and design.

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

The complete trunking system

- | | |
|-----------------------|---------------------------------------|
| 1. Trunking base | 10. Cable retainer |
| 2. Front cover | 11. Cable shelf |
| 3. Internal corner | 12. Joint cover piece for front cover |
| 4. External corner | 13. Jointing piece |
| 5. Bend 90° | 14. Front locking clip |
| 6. Stop end | 15. Sealing strip |
| 7. Wall/ceiling frame | 16. Earthing kit (Aluminium trunking) |
| 8. Joint cover piece | |
| 9. T-piece | |

Click-in accessories

All accessories are designed for easy click-in mounting without tools.

- Easy installation without instructions
- Mounted directly without adaptations
- Mounted when trunking is in place.

Efficient mounting support

Both PVC and aluminium trunking profiles are prepared for fast, exact and reliable installation.

- Pre-punched oval holes every 25 cm
- Easy to make X and Y adjustments.

Professional tools and fixings

Dedicated tools and fixings for fast and safe installation.

- Extra long drills and bits to avoid damaging the front when using a drilling machine
- Fixings suitable for any material
- Screws for PVC trunking
- Screws to be used together with single-insulated wires.

Perfect joints

Two jointing pieces for exact levelling and a click-in joint cover piece to hide the gap

- Perfect joints
- No tools needed
- Joint cover piece in one piece
- The jointing pieces can also be used for joints without joint cover piece.

Adjustable corners

The adjustable corners are delivered in one piece.

- Easy and quick to mount
- No adaptations needed.

The cable retainer – a helping hand

The cable retainer keeps all the cables in place in the trunking during the installation.

- Faster installation
- One man can do the work
- Green colour for quick identification
- Can remain in place also after the installation.

Secure front cover

Auto-guided and extra secure click-in for the front. High-quality material.

- Easy to mount also when kneeling
- Works reliably even at low temperatures
- Can not be opened without a tool
- IP40 classified.

Pull-out safe outlets

Extra secure click-in function combined with a front locking clip.

- High pull-out loads on the wiring devices
- Design aligned with Altira.

Pre-punched slots for easy hole making

Pre-punched slots in the PVC partition walls.

- Easy hole making by hand or with a screwdriver
- Allows cross-sectional feeding of cables.

Easy feeding without threading

The pre-punched slots can be cut up with a cutting shears.

- The cables can be laid in without threading
- Very easy to feed cables between the compartments
- Cables and outlets can be separated.

Protective foil

Protective foil on both sides of the trunking base and on the front cover. The main product references including pictures are printed on the foil.

- No surface damages during the installation
- Easy to order new parts.

Dust protection

A sealing strip can be fitted between the trunking and the floor.

- 5-15 mm coverage
- Easy cleaning
- Solid impression.

Smart package

The trunking base and front covers are packed together, but not assembled.

- Easy handling
- No damages. The covers are protected until final installation.

OptiLine 45 Trunking Presentation

Three-compartment trunking
The three-compartment trunking allows a dedicated space for the wiring devices.

- Maximum distance between VDI and power cables
- High capacity
- Easy installation.

Symmetrical design
The trunking base is symmetrical and has a softly rounded form.

- Easy and safe mounting
- No risk of installing the trunking upside-down
- The trunking form guides the accessories in place.

55 mm depth
All trunking are 55 mm deep.

- High cable capacity
- Space enough for 3x2.5 mm² cables behind the wiring devices.

Perfect bends
The bend kit includes an adjustable fixing device to be screw-fitted to the wall.

- Large tolerances when cutting and fixing the trunking
- Self-guiding mounting of the bend piece
- Perfect result and finish.

High classification
The trunking is IP40 and IK07 classified.

- Safe and impact resistant
- Can not be opened without a tool.

The PVC trunking is fire classified in category M1.

One-compartment trunking
Suitable for both installation and distribution. A cable shelf separates VDI cables from power cables.

Dedicated VDI trunking
A non-symmetrical two-compartment trunking especially intended for VDI installations.

- Extra space for VDI cables in the larger lower compartment
- Long distance between VDI and power cables.

Easy earthing of aluminium trunking
The aluminium trunking base and front cover has easily accessible earthing rails. A pre-mounted earthing kit is available on one reference number.

- Easy to order
- Quick and easy to mount
- Screwless mounting.

Accessories for PVC trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Front cover				
Front cover to be snap-fitted in trunking with a 45 mm front opening. Supplied with protective foil, in lengths of 2 m. Material: PVC or aluminium.				
P85785 	White RAL 9010	45/16/2000	24 m	ISM10900
P85786 	Anodized	45/16/2000	24 m	ISM10950
Cable retainer				
Cable retainer to be mounted at the back of the trunking base to keep cables in place during the installation phase. No need to remove the retainer when fitting the front cover. Package of five. Material: PA.				
P85787 	Green	32/42/25	5	ISM10901
Cable shelf				
Single cable shelf to be mounted in the trunking base, providing separation between power and low voltage cables. Supplied in lengths of 1 m. Material: PVC.				
P85788 	White RAL 9010	17/47/1000	24 m	ISM10902
Joint cover piece for front cover				
Joint cover piece intended to cover joints between two front covers. Package of five. Material: PC/ABS.				
P85789 	White RAL 9010	47/20/23	5	ISM10903
P89053 	Alu metallic	47/20/23	5	ISM10951
Joining piece				
Internal jointing piece intended to facilitate jointing of two PVC trunking bases. May also be used to mount the joint cover piece. Package of ten. Material: PC/ABS.				
P85790 	White	4/51/100	10	ISM10904
Sealing strip				
Sealing strip to be fitted between trunking and floor for a 10-15 mm coverage. Material: PVC.				
P85791 	White	17/40/2000	24 m	ISM10905
Front locking clip				
Front locking clip to be mounted on either side of an outlet in order to secure pull-out forces. Package of ten. Material: PC/ABS.				
P85792 	White RAL 9010	45/23/23	10	ISM10906
Modular device adaptor				
2-module adaptor for 1-2 modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC+ASA.				
P85793 	White RAL 9010	90/72/45	1	ISM10907
Cutting shears				
Cutting shears for PVC material. To be used when for instance cutting slots in the partition walls of PVC trunking (sizes 140 and 185) for easy cable laying between compartments. Also suitable when cutting front covers, cable shelves or other PVC length material, instead of using a saw. Material: Steel.				
P91380 	Orange	230/22/80	1	ISM10908

Aluminium trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Installation trunking				
Installation trunking including one, two or three-compartment trunking base and front cover(s). The trunking base has pre-punched mounting holes every 25 th cm and can be provided with cable shelves. 45 mm front opening for direct click-in of Altira 45x45 module wiring devices. Trunking base and front cover are supplied unassembled under separate protective foil, in lengths of 2 m. Material: Aluminium.				
With one compartment	Anodized	75/55/2000	12 m	ISM10150
With one compartment	Anodized	95/55/2000	12 m	ISM10250

	For trunking 185x55	Alu metallic	240/82/22	1	ISM10555
Joint cover piece, kit					
Joint cover piece, supplied and mounted together with two jointing pieces. Intended to cover joints between two aluminium trunking sections. Easy to remove in case of an upgrading of the installation. Material: PC/ABS, painted.					
	For trunking 75x55	Alu metallic	80/57/100	1	ISM10156
	For trunking 95x55	Alu metallic	100/57/100	1	ISM10256
	For trunking 140x55	Alu metallic	145/57/100	1	ISM10356
	For trunking 165x55	Alu metallic	170/57/100	1	ISM10456
	For trunking 185x55	Alu metallic	190/57/100	1	ISM10556
T-piece					
T-piece intended to connect vertical and horizontal aluminium trunking of various sizes. Material: PC/ABS, painted.					
	For vertical trunking 75x55 and horizontal trunking 75x55	Alu metallic	42/57/97	1	ISM10157
	For vertical trunking 75x55 and horizontal trunking 95x55, 140x55, 165x55 or 185x55	Alu metallic	52/57/97	1	ISM10357
	For vertical trunking 95x55 and horizontal trunking 95x55, 140x55, 165x55 or 185x55	Alu metallic	52/57/117	1	ISM10258
	For vertical trunking 140x55 and horizontal trunking 140x55, 165x55 or 185x55	Alu metallic	52/57/162	1	ISM10358
Front cover					
Front cover to be snap-fitted in trunking with a 45 mm front opening. With earthing slots. Supplied with protective foil, in lengths of 2 m. Material: Aluminium.					
	Front cover	Anodized	45/16/2000	24 m	ISM10950
Cable retainer					
Cable retainer to be mounted at the back of the trunking base to keep cables in place during the installation phase. No need to remove the retainer when fitting the front cover. Package of five. Material: PA.					
	Cable retainer	Green	32/42/25	5	ISM10901
Cable shelf					
Single cable shelf to be mounted in the trunking base, providing separation between power and low voltage cables. Supplied in lengths of 1 m. Material: PVC.					
	Cable shelf	White RAL 9010	17/47/1000	24 m	ISM10902

Accessories for aluminium trunking					
Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.	
Joint cover piece for front cover					
Joint cover piece intended to cover joints between two aluminium front covers. Package of five. Material: PC/ABS, painted.					
P86063 	Alu metallic	46/20/23	5	ISM10951	
Joining piece					
Internal joining piece intended to facilitate jointing of two aluminium trunking bases. May also be used to mount the joint cover piece. Package of ten. Material: PC/ABS.					
P85790 	White	4/51/100	10	ISM10904	
Joining/earthing piece					
Internal jointing and earthing piece, intended for jointing and earthing of two aluminium trunking bases. Including two screws. Material: Zinc.					
P85794 	Untreated	4/6/26	10	ISM10955	
Sealing strip					
Sealing strip to be fitted between trunking and floor for a 10-15 mm coverage. Material: PVC.					
P85791 	White	17/40/2000	24 m	ISM10905	
Front locking clip					
Front locking clip to be mounted on either side of an outlet in order to secure pull-out forces. Package of ten. Material: PC/ABS.					
P85792 	White RAL 9010	45/23/23	10	ISM10906	
Modular device adaptor					
2-module adaptor for 1-2 modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC+ASA.					
P87195 	Alu metallic	90/72/45	1	ISM10957	
Earthing clamp					
Earthing clamp to be used for bonding of front cover, trunking base and accessories to earth. Package of ten. Material: Steel.					
P87196 	—	9/9/9	20	ISM10952	
Earthing kit					
Kit including earth wire with flat pin connectors and earthing clamps. To be used to connect the front cover to the base profile or the base profile to another base profile.					
P85796 	Yellow/green	L = 200 L = 300	10 10	ISM10953 ISM10954	

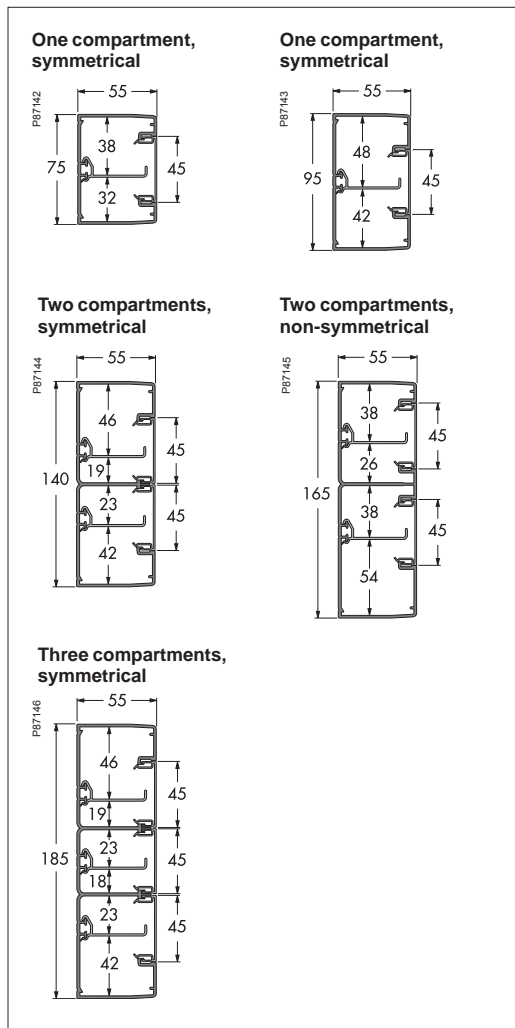

Fixing material for installation trunking

Type	Colour	Dimensions Ø/length (mm)	Qty per package	Ref. No.		
Screw plugs						
Screw plug suitable for use in concrete, stone, lightweight concrete, expanded clay, hollow blocks and bricks, solid bricks and plasterboard. Material: PE.

OptiLine 45 Poles

Presentation

Service poles with 45 mm front opening for direct click-in of Altira wiring devices

OptiLine 45 service poles with a 45 mm front opening offer very flexible installation solutions, bringing power, telecom and data directly from the ceiling to the desk.

The poles have a softly rounded and slender form and are made of aluminium with a high surface finish, either natural anodised or powder coated white. They are installed free-standing in the room mounted on a foot and movable within a radius of up to 1.5 metres from the connection point in the ceiling, or tension-mounted between floor and ceiling. Both types are available in one and two-sided versions, or with four boxes.

The spring-loaded and adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools.

Altira 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Altira 45x45 module wiring devices which gives optimal function and design.

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

OptiLine 45 Poles Presentation

Correct user interface
Altira is also designed for vertical mounting

- Correct user interface
- Correct load on VDI patch cords

Design, finish and quality
All OptiLine poles are made of aluminium, anodized or powder coated, with a high surface finish. The form is softly rounded and slendered. All parts are designed to give reliable function and easy installation.

Stable and sturdy
All parts in aluminium, several are die-cast. Foot in sand-cast iron.

- Stable and sturdy design
- Reliable function
- High-quality impression.

Innovative square foot
The foot has a steel clamp that can be unfolded for extra support.

- Steady
- Nice installation close to the wall
- Two poles can be placed back to back.

Cable separation
Partition profile for good separation of cables.

- Correct distance between VDI and power cables
- Full isolation between terminations and cables.

Screw slots
Slots along both sides of the pole.

- For decorative colour strips
- For products like spotlights, small shelves etc.

Many mounting options
Accessories for all mounting options. The ceiling frame for the flexible conduit is mounted without a tool and can be adjusted to different ceiling thicknesses.

Handy ceiling fixing
Fitted easily without tools. Self-locking adjustment.

- Quick and safe installation
- 400 mm working range
- Mechanism outside the pole – does not interfere with the wiring devices.

Flexibility
The movable pole has a steady foot and a flexible conduit.

- Easy to move the poles to optimize the office layout
- 1.5 m action radius.

Smooth stop-end
Stop end in cast aluminium with smoothly shaped edges.

- Covers the sharp cut of the base profile
- No risk of damaged cables.

Accessories for service poles

P86528		Foot for free-standing, movable pole				
		Rectangular foot for free-standing, movable pole, to be fixed to the bottom plate of the pole by means of two M6 bolts (included). The foot is provided with a steel clamp that can be unfolded for extra support. When not in use, the clamp lies protected in a recess underneath the foot. Specially suited in applications close to the wall or when two poles are positioned back to back. Material: Cast iron, painted.				
		Foot, rectangular	Grey	33/250/346	1	ISM20809
P86529		Foot for free-standing, movable pole				
		Round foot for free-standing, movable poles, to be fixed to the bottom plate of the pole by means of two M6 bolts (included). Suitable both for one and two-sided poles. Material: Cast iron, painted.				
		Foot, round	Grey	29/Ø317	1	ISM20808
P86527		Ceiling frame				
		Ceiling frame intended to lead flexible conduit through false ceiling. To be mounted in circular hole, Ø125 mm, by using three included clamps. Also including a slotted plastic plate to be used to lock the flexible conduit, which is fixed by cable ties. The plate can also be used as a drill template for entrance hole Ø125 mm. Material: PC/ABS.				
		Ceiling frame	White RAL 9010	89/Ø161	1	ISM20812
P86532		Ceiling frame				
		Ceiling frame for one-sided or two-sided poles or for Ø65 mm profile. Covers the edge of the hole in a false ceiling. Self-sticking. Material: PS (polystyrene).t				
		Ceiling frame for 1-sided pole	White RAL 9010	1/108/129	1	ISM20810
P86531		Ceiling frame				
		Ceiling frame for one-sided or two-sided poles or for Ø65 mm profile. Covers the edge of the hole in a false ceiling. Self-sticking. Material: PS (polystyrene).t				
		Ceiling frame for 2-sided pole	White RAL 9010	1/156/130	1	ISM20811
P92648		Ceiling frame				
		Ceiling frame for one-sided or two-sided poles or for Ø65 mm profile. Covers the edge of the hole in a false ceiling. Self-sticking. Material: PS (polystyrene).t				
		Ceiling frame for Ø65 mm pole	White RAL 9010	1/Ø115	1	ISM20552
P86524		Cable tray fixing				
		Cable tray fixing including fixing material, intended to connect flexible conduit to cable tray. Gripping around cable tray. Material: Steel, powder coated.				
		Cable tray fixing	White RAL 9010	100/15/70	1	ISM20813
P86530		Cable tray fixing				
		Cable tray fixing including fixing material, intended to connect a Ø65 mm service pole to cable tray or cable ladder. Allows a flexible connection of the pole in various directions. Material: Steel, powder coated.				
		Cable tray fixing	White RAL 9010	75/50/120	1	ISM20814
P92607		Cable tray fixing, Ø65 mm pole				
		Cable tray fixing including fixing material, intended to connect a Ø65 mm service pole to cable tray or cable ladder. Allows a flexible connection of the pole in various directions. Material: Steel, powder coated.				
		Cable tray fixing, Ø65 mm pole	White RAL 9010	75/Ø72	1	ISM20554
P86526		Ceiling fixing				
		Ceiling fixing intended to connect flexible conduit to ceiling or wall. Fixings not included. Material: Aluminium, powder coated.				
		Ceiling fixing	White RAL 9010	50/156/90	1	ISM20816
P84603		Busbar fixing				
		Busbar fixing for Ø55 mm conduits, intended to connect flexible conduit to busbar trunking. Material: Steel, powder coated.				
		Busbar fixing	White RAL 9010	105/90/70	1	ISM20815

Accessories for service poles

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Front cover				
Front cover to be snap-fitted in service carriers with a 45 mm front opening. With earthing slots. Supplied with protective foil, in lengths of 2 m. Material: Aluminium, natural anodized or powder coated white.				
Front cover	Anodized	45/16/2000	24 m	ISM10950
Front cover	White RAL 9010	45/16/2000	24 m	ISM10960
Floor fixing with slot for floor feeder				
Floor fixing for one or two-sided service pole. Fixed to the floor by screws. With slot for connection of floor feeder 18x75 mm. Material: Aluminium, powder coated.				
For one-sided pole	Grey RAL 9007	38/125/102	1	ISM20820
For two-sided pole	Grey RAL 9007	38/125/156	1	ISM20821
Floor feeder				
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service pole provided with a slotted floor fixing for 18x75 mm floor feeder. Material: PVC.				
Floor feeder	Grey RAL 7030	18/75/2000	28 m	ISM20817
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service pole provided with a slotted floor fixing for 18x75 mm floor feeder. Material: Aluminium, natural anodized.				
Floor feeder	Anodized	18/75/2000	8 m	ISM20857
Floor feeder jointing piece				
Floor feeder jointing piece to cover joints between floor feeder sections. Material: PVC.				
Jointing piece	Grey RAL 7030	20/50/78	10	ISM20818
Corner feeder piece				
Corner feeder piece to be used in 90 degree corners between floor feeder sections. Material: PVC.				
Corner feeder piece	Grey RAL 7030	20/120/120	10	ISM20819
Floor feeder adaptor				
Adaptor to be used between floor feeder and wall trunking with a 45 mm front opening. Material: PC/ABS.				
Adaptor	White RAL 9010	60/63/110	1	ISM20826
Adaptor	Alu metallic	60/63/110	1	ISM20827
Partition profile				
Partition profile of halogen-free material with two partition walls. Mounted in internal fixing rails of poles and posts. Supplied in lengths of 0.5 m. Material: ABS.				
Partition profile	White RAL 9010	500/30/52	10	ISM20825
Decorative stripe				
Decorative stripe to be fitted in the slots along the sides of poles and posts. Supplied in lengths of 5 m. Material: Silicone rubber.				
Decorative stripe	Grey	5000/Ø3.5	5 m	ISM20822
Decorative stripe	White RAL 9010	5000/Ø3.5	5 m	ISM20823

OptiLine 45 Posts Presentation

Service posts with 45 mm front opening for direct click-in of Altira wiring devices

OptiLine 45 service posts with a 45 mm front opening give a neat installation solution on all types of floors.

The posts have a softly rounded and compact form and are made of aluminium with a high surface finish, either natural anodised or powder coated white. They are available in one and two-sided versions.

On raised access floors and in-cavity floors the posts are fed from under the floor. On concrete floors the feeding comes from a screeded floor box. For other floors a floor feeder is available as an accessory.

Altira 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Altira 45x45 module wiring devices which gives optimal function and design.

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

One-sided posts

Two-sided posts

Two-sided posts for floor grommet

OptiLine 45 Posts Presentation

Full flexibility

For a truly flexible solution, go for our two-sided outlet post with a special fixing for the floor grommet. Canalis busbar trunking and mesh trays distribute power and networks under the floor and further up to the post through the floor grommet. The floor grommet suits any type of floor and can be installed where required. Should needs be changed, just remove the post, put the cover back, install a new grommet and move the post to where it is needed.

Tube adaptor

With a tube adaptor in the floor grommet you can supply power and data to a furniture box instead.

Stable and tight

When not in use the centre cover makes the floor grommet tight, withstanding both water and high loads.

Design, finish and quality

All OptiLine posts are made of aluminium, anodized or powder coated, with a high surface finish. The form is softly rounded and slendered. All parts are designed to give reliable function and easy installation.

Stable and sturdy

All parts in aluminium, several are die-cast.

- Stable and sturdy design
- Reliable function
- High-quality impression

Feeding along/under the floor

Posts could be fed from the floor or along the floor

- Floor fixing for feeding from the floor as a standard
- Floor fixing with slot for floor feeder as an accessory

Feeding from trunking

The post can be fed from a wall trunking.

- Easy and fast installation
- Floor feeder adaptor with adjustable height

Screw slots

Slots along both sides of the post

- For decorative colour strips
- For products like hooks etc.

Cable separation

Partition profile for good separation of cables.

- Correct distance between VDI and power cables
- Full isolation between wiring device terminations and cables

Wet sealing

The floor fixing can be provided with a gasket ring.

- Gasket ring included in the package
- Effective wet sealing
- Stable mounting also on slightly uneven floors

Correct user interface

Altira 45x45 modules are designed also for vertical mounting

- Correct user interface
- Correct load on VDI patch cords

Design and dimensions

OptiLine 45 Floor boxes Presentation

A system for power, tele and data links in office flooring

The system consists of floor outlet boxes, floor access boxes, screeded floor boxes and a number of accessories. All products are made of halogen-free material.

The floor outlet boxes are provided with mounting frames for Altira outlets. There are two sizes available of the box; 199x199 mm and 199x276 mm. The smaller size can be equipped with four single or two double outlets. The bigger one is available either for six single or three double outlets or for eight single or four double outlets. The height of the mounting frames is adjustable from 70 to 100 mm in steps of 5 mm. This gives optimal capacity and makes it easy to install DIN-modules and outlets on different levels. All screeded boxes can be connected to floor trunking or flexible conduits. When using conduits the boxes can be positioned anywhere in the floor.

Four module box
For two double or four single outlets

Six module box
For three double or six single outlets

Eight module box
For four double or eight single outlets

Optiline 45 floor boxes can be installed in all types of floor

- Raised access floors: Outlet boxes and access boxes are installed straight into the floor
- Screeded floors
 - Screeded boxes in plastic and steel with adjustable height
 - Steel trunking and flexible conduit for connection and embedding
- In-cavity floors: Outlet boxes and access boxes are installed straight into the floor.

Altira 45x45 module wiring devices

OptiLine 45 floor boxes are provided with mounting frames for Altira wiring devices. Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products.

Installation of DIN device

A complete embedded system

- Screeded steel boxes for larger cable capacity
- Screeded plastic boxes for smaller cable capacity
- Both boxes can be connected with floor trunking or flexible conduits
- With flexible conduits the boxes can be positioned anywhere in the floor.

Height adjustment and levelling

- Both plastic and steel screeded boxes have individual levelling and height adjustment at all four corners
- Adjustment range
 - Plastic box 75-95 mm
 - Steel box 75-110 mm
- Connection for steel trunking and flexible conduits remains fixed even when height is adjusted.

Base box and partition wall allows mixed installations

- Base box
 - Can be fixed on two levels in the mounting frame
 - Allows mixed installation of power and low voltage
 - Provides IP20 protection
 - DIN-rail snap-in
- Partition wall in mounting frame
 - Allows mixed installation of power and low voltage in the same mounting frame.

Simple and fast connection in the mounting frame

- Cable inlets in chamfered corners
 - Easy connection
 - The cables are not squeezed
- Cable inlets open downwards
 - The cable can be laid in (no need to draw through)
 - Cables with pre-assembled plugs and outlets can be used
- Fast strain relief
 - Just press to secure cable.

Connection between outlets in different mounting frames

- Cut-outs on the long sides of the mounting frames
 - Simplifies connection with single wires between outlets in different mounting frames.

Individual mounting frame height for optimal capacity

- Adjustable mounting frame height in steps of 5 mm
 - Easy to install DIN-modules
- Possible to have DIN-modules and outlets on different levels
- Optimises the capacity
- Optimises the internal space for cables and plugs
- DIN-modules mounted in base box
 - Fast and secure installation
 - Tool-free installation.

Quick installation of boxes without tools

- Quick-fix fastening
 - Quick installation
 - Fastens in floors >10 mm
 - No tools needed
 - Self-adjusting
- Swivel screw fastening
 - Good complement in e.g. plasterboard.

Extra fixation of boxes

- In addition to the quick-fix, the floor outlet box and the access box can be fixed into the plastic screeded box with two screws
- The access box can also be secured against interference with a single screw.

Optional directions for opening and cable exit

- Square box
 - Option for opening and cable exit in four directions
 - The lid can be mounted in two opposite directions
- Rectangular box
 - Option for opening and cable exit in two directions
 - The lid can be mounted in two opposite directions.

Blends with the floor

- Standard carpet insert
 - Available as accessory in durable linoleum
- Any other floor insert
 - Up to 6 mm thick floor insert
 - 3 mm steel plate provides support
 - Discrete impression, blends with present floor.

Self-closing, removable lids

- The lid closes automatically by its own weight
 - Increased safety
 - Reduces accident risk
- Removable lid
 - Remove without tools
 - When bent backwards the lid will be released in stead of breaking.

Hard-wearing and load resistant

- Boxes made of polyamide
 - Hard-wearing
 - Resistant to chemical detergents
 - Resistant to aging
- Load resistant
 - Load certified conforming to VDE 0634 Teil 1.

Floor outlet boxes

Type	Colour	Dimensions A/B/C (mm)	Qty per pack	Ref. No.
------	--------	-----------------------	--------------	----------

Floor outlet box including mounting frames for Altira outlets, trim frame with four quick-fix devices and lid with cable exit. Also including a plastic bag containing cable holder, partition wall and strain relief devices. The lid can be installed in two positions. It can be fitted with floor material of up to 6 mm thickness or with the lid infill accessory. The mounting frames are snapped into the trim frame. The height of the mounting frames is adjustable from 70 mm to 100 mm, in steps of 5 mm. The floor outlet box is suitable for 45x45 mm single outlets or 45x90 mm double outlets.
Material: PA6 with 30% glass pellets, steel. Mounting frame for Altira = PC/ABS, for Unica = PBT.

Four module box, with two mounting frames for two double or four single Altira outlets	Grey	72/199/199	1	ISM50624
Six module box, with three mounting frames for three double or six single Altira outlets	Grey	72/276/199	1	ISM50636
Eight module box, with two mounting frames for four double or eight single Altira outlets	Grey	72/276/199	1	ISM50638

Floor access boxes

Floor access box including trim frame with four quick-fix devices, two swivel fixings and screw-fixed lid. The lid can be fitted with floor material of up to 6 mm thickness or with the lid infill accessory, the swivel fixings suit raised floors ranging from 23 to 56 mm in thickness. To be used together with screeded floor box of PP or steel in screeded floors.
Material: PA6 with 30% glass pellets, steel.

Square	Grey	33/199/199	1	ISM50520
Rectangular	Grey	33/276/199	1	ISM50530

Screeded floor boxes

Plastic box

Screeded floor box for embedment in screeded floors from 75 to 95 mm thickness. With cut-outs for floor trunking and conduits
Ø 25 and 40 mm.
Material: PP.

For square floor outlet and access boxes and up to 150 mm wide floor trunking	Light grey	75-95/188/188	1	ISM50320
For rectangular floor outlet and access boxes and up to 200 mm wide floor trunking	Light grey	75-95/188/265	1	ISM50330

Steel box

Screeded floor box including trunking adaptors, for embedment in screeded floors from 75 to 110 mm thickness. Adaptors on all four sides.
Material: Sheet steel.

For square floor outlet and access boxes and up to 200 mm wide floor trunking	—	75-110/350/350	1	ISM50322
For rect. floor outlet and access boxes and up to 200 mm wide floor trunking	—	75-110/350/350	1	ISM50332
For square floor outlet and access boxes and up to 350 mm wide floor trunking	—	75-110/500/500	1	ISM50323
For rect. floor outlet and access boxes and up to 350 mm wide floor trunking	—	75-110/500/500	1	ISM50333

Floor trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Floor trunking with two compartments				
Floor trunking with two compartments and integrated separation wall, intended for use in screeded floors, in combination with screeded floor boxes of plastic or metal. Available in two heights, 28 and 38 mm. Material: Sheet steel, galvanized.				
	150x28 mm	—	28/150/2000	2 m 4260101
	150x38 mm	—	38/150/2000	2 m 4260111
	200x28 mm	—	28/200/2000	2 m 4260102
	200x38 mm	—	38/200/2000	2 m 4260112
Floor trunking with three compartments				
Floor trunking with three compartments and integrated separation walls, intended for use in screeded floors, in combination with screeded floor boxes of plastic or metal. Available in two heights, 28 and 38 mm. Material: Sheet steel, galvanized.				
	250x28 mm	—	28/250/2000	2 m 4260106
	250x38 mm	—	38/250/2000	2 m 4260116
	350x28 mm	—	28/350/2000	2 m 4260107
	350x38 mm	—	38/350/2000	2 m 4260117
Fixation clamp				
Clamp intended to fix a floor trunking to the concrete floor and to hold the position at the screeded floor-box junction. The clamp suits both 28 mm and 38 mm high trunking, making an adjustment by rotation of the end clips. Material: Sheet steel, galvanized.				
	For 150 mm floor trunking	—	30/312/40	1 4260121
	For 200 mm floor trunking	—	40/262/30	1 4260122
	For 250 mm floor trunking	—	30/312/40	1 4260123
	For 350 mm floor trunking	—	30/411/40	1 4260124
Vertical corner with two compartments				
Vertical corner with two compartments and an integrated separation wall. Intended to guide cables from vertical to horizontal direction. The bend of the corner is chamfered, allowing a proper bending radius of the cables. Material: Sheet steel, galvanized.				
	For 150x28 mm trunking	—	201/150/201	1 4260133
	For 150x38 mm trunking	—	201/150/201	1 4260140
	For 200x28 mm trunking	—	201/200/201	1 4260134
	For 200x38 mm trunking	—	201/200/201	1 4260141
Vertical corner with three compartments				
Vertical corner with three compartments and two integrated separation walls. Intended to guide cables from vertical to horizontal direction. The bend of the corner is chamfered, allowing a proper bending radius of the cables. Material: Sheet steel, galvanized.				
	For 250x28 mm trunking	—	201/250/201	1 4260138
	For 250x38 mm trunking	—	201/250/201	1 4260145
	For 350x28 mm trunking	—	201/350/201	1 4260139
	For 350x38 mm trunking	—	201/350/201	1 4260146
Earthing kit				
Kit including earth wire with flat pin connectors and earthing clamps. Intended to provide an earth connection between two metal floor trunking bodies, or other sheet metal products. Material: Spring steel, copper.				
Earthing kit	Yellow/green	L = 200 L = 300	10 10	ISM10953 ISM10954

Accessories

Mounting frame for Altira outlets

Mounting frame for floor outlet box (the 139 mm mounting frame for both floor box sizes, the 216 mm mounting frame only for the rectangular ones). Suitable for single or double Altira outlets. For DIN devices the mounting frame must be combined with the corresponding size of base box.

Material: PC/ABS.

P85846		For two single or one double outlet	Anthracite grey	38/64/139	6	ISM50809
		For four single or two double outlets	Anthracite grey	38/64/216	4	ISM50810

Base box

Base box to be combined with the mounting frame in order to fulfil IP20 (the 126 mm base box for both floor box sizes, the 203 mm base box only for the rectangular ones). May also be used to mount DIN devices.

Material: PA6.

P85847		For two single or one double outlet	Blue	23/64/126	10	ISM50800
P85836		For four single or two double outlets	Blue	23/64/203	10	ISM50801

Lid infill, linoleum

Lid infill to be used in the lid of floor outlet boxes or floor access boxes. Provided with self-adhesive tape underneath.

Material: Linoleum.

P85843		For square boxes	Grey	6/139/167	1	ISM50807
P85844		For rectangular boxes	Grey	6/139/245	1	ISM50808

Lid infill, steel

Lid infill to be used in the lid of floor outlet boxes or floor access boxes. Provided with a protective film on the upper surface and a soft rubber layer with self-adhesive tape underneath.

Material: Stainless steel, rubber.

P93897		For square boxes	–	6/139/167	1	ISM50817
P93898		For rectangular boxes	–	6/139/245	1	ISM50818

Modular device kit, Altira

Modular device kit for DIN devices, including DIN-rail and transparent grey cover with white frame. Suitable for one or two 18 mm DIN devices, e.g. miniature circuit breakers. To be used only in combination with mounting frame for Altira outlets and blue base box.

Material: PC+ASA (DIN-rail), PC/ABS and PC (cover with frame).

P92822		Modular device kit, Altira	White	72/45/90	1	ISM50811
--------	---	----------------------------	-------	----------	---	----------

Swivel fixing

Swivel fixing to be mounted on each side of the floor outlet and access boxes. To be used in raised floors with a thickness ranging from 23 mm to 56 mm. Intended as a spare part.

Material: PA6, steel.

P85838		Swivel fixing	Blue	58/12/25	2	ISM50823

OptiLine 45 Service boxes

Presentation

Service boxes with 45 mm front opening for direct click-in of Altira wiring devices

OptiLine 45 service boxes provide flexible solutions for the supply of power, telecom and data to desks in offices and conference rooms. The basic boxes can also be used as access points in the ceiling for feeding of poles.

Three box types are included in the offer:

- A six-sided pop-up box, pre-wired with outlets, cable and plug.
- A mini pop-up box, empty for three modules, with strain relief.
- A flip-up box, empty for five modules. For flush-mounting in desks. Fixing elements, earthing cable and strain relief included.
- A turnable and smoothly rounded one-sided box. Pre-wired with outlets, cables and plugs.
- A one-sided basic box, pre-wired with outlets, cables and plugs, pre-defined with outlets, or empty. Terminated or with Wieland interface.

All boxes are made in natural anodised aluminium with a high finish. Many boxes are delivered pre-wired for easy ordering and quick installation.

The pop-up box and the turnable boxes offer unique user advantages in terms of design and accessibility.

Pop-up service box

Mini pop-up service boxes

Flip-up service boxes

Altira 45x45 module wiring devices

The OptiLine 45 range has a front opening for direct click-in of Altira 45x45 module wiring devices which gives optimal function and design.

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats, timers.

Basic service boxes

Turnable service box

OptiLine 45 Service boxes Presentation

Flip-up and Pop-up

Pop-up
Large-capacity box, 6-sided. A light touch activates a gas-operated spring that slowly pushes the box up into working position.

Mini pop-up
A manual pop-up box with a smart membrane on top, enabling the box to be pushed down flush with the desk surface also with connected cables and plugs.

Flip-up

Flip-up
Flush-mounted box with a spring-loaded cover that is opened by a light touch. A cable basket is easily mounted under the box.

Turnable

Turnable boxes
Boxes with exclusive finish, made to suit settings with high design requirements. Can be turned around their own axis, to efficiently serve two sides of the desk. With chromium-plated feet to enhance the exclusive feeling.

Surface mounted

Surface mounted boxes for every need
Universal boxes with smart fixing devices. Can be fixed to a desk, to a wall or to cable trays. With Wieland installation couplers for safe and quick power connection, or terminal interface.

Connection block	—	30/40/75		1	ISM20450
Power cables					
Extension cable 1-phase 250/400V 16A with connectors. Cable: halogen-free Ø10.2 mm, S05Z1A7Z1-F3G1.5 3x1.5mm ² . Connectors: female GST 18i3 and male power connector (combined pin- and side-earth). NOTE: Only to be used for Schneider furniture units! Material: PA, PE/PP, FR.					
Cable, 2 m	White	Length 2000		1	INS40720
Cable, 3 m	White	Length 3000		1	INS40721
Cable, 5 m	White	Length 5000		1	INS40722
Fixings for Basic box					
Cable tray fixing, kit including two universal fixings, two cable tray fixings, two screws and two nuts. Can be mounted in three different positions in slots in the box. Material: Steel, zinc plated.					
Fixing for cable tray	—	42/45/70		2	INS40701
Universal fixing. Can be mounted in three different positions in slots in the box. Package of two. Material: Steel, zinc plated.					
Universal fixing	—	5/30/70		2	INS40702
Wall fixing, to be screw-fitted to the wall. The box is pushed in place on the fixing, can be mounted in three different positions. Also suitable for connection of two boxes. Material: Steel, zinc plated.					
Wall fixing	—	5/30/195		1	INS40700

Accessories for service boxes

Type	Colour	Dimensions A/B/C (mm)		Qty per package	Ref. No.
Ceiling cable feeder					
Cable feeder including base profile with separation wall and cover. Diameter 52 mm. For cable feeding from ceiling to work-desk. Material: Aluminium, natural anodized or powder coated white RAL 9010.					
Cable feeder	Anodized White	3200/Ø52		1	ISM20800 ISM20801
Desk lead-through					
Round guide bushing with flange and locking device. For lead-through of ceiling cable feeder through desktop. Material: Aluminium, powder coated grey RAL 9007 or white RAL 9010.					
Desk lead-through	Grey White	70/Ø80		1	ISM20802 ISM20803
Feeder adaptor					
Adaptor for ceiling cable feeder. To be used as connection for flexible conduit Ø55 mm. Material: Aluminium, powder coated grey RAL 9007 or white RAL 9010.					
Adaptor	Grey White	25/Ø58.5		1	ISM20804 ISM20805
Foot adaptor					
Adaptor intended for mounting the ceiling cable feeder onto a round foot (ISM20808). Material: Steel, painted.					
Foot adaptor	Grey	145/Ø60		1	ISM20832
Round foot					
Round foot to be fixed to foot adaptor to provide a stable base to the ceiling cable feeder. Fixes to the foot adaptor by means of two M6 bolts (included). Material: Cast iron, painted.					
Foot, round	Grey	29/Ø317		1	ISM20808
Flexible conduit					
Flexible conduit, Ø55 mm, to be used to bring cables from ceiling to cable feeder. Material: PUR (polyurethane).					
Flexible conduit	Alu metallic White NCS	2000/Ø55		2 m	ISM20806 ISM20807
Flexible conduit (split tube), Ø25 mm, to be used for cable feeding from ceiling to service carrier or from floor outlet box to desk top. Cables to be laid by using dedicated mounting tool. Material: PP.					
Flexible conduit	Grey metallic	Ø25/2000		2	ISM50850
Mounting tool					
Mounting tool for laying of cables in split-tube flexible conduits. Material: PP.					
For Ø25 mm conduit	—	Ø115/36/70		1	ISM50852
Ceiling frame					
Ceiling frame intended to lead flexible conduit through false ceiling. To be mounted in circular hole, Ø125 mm, by using three included clamps. Also including a slotted plastic plate to be used to lock the flexible conduit, which is fixed by cable ties. The plate can also be used as a drill template for entrance hole Ø125 mm. Material: PC/ABS.					
Ceiling frame	White RAL 9010	89/Ø161		1	ISM20812
Cable tray fixing					
Cable tray fixing including fixing material, intended to connect flexible conduit to cable tray. Gripping around cable tray. Material: Steel, powder coated.					
Cable tray fixing	White RAL 9010	100/15/70		1	ISM20813
Ceiling fixing					
Ceiling fixing intended to connect flexible conduit to ceiling or wall. Fixings not included. Material: Aluminium, powder coated.					
Ceiling fixing	White RAL 9010	50/156/90		1	ISM20816

Accessories for service boxes

Type	Colour	Dimensions A/B/C (mm)		Qty per package	Ref. No.
Busbar fixing					
Busbar fixing for Ø55 mm conduits, intended to connect flexible conduit to busbar trunking. Material: Steel, powder coated.					
Busbar fixing	White RAL 9010	105/90/70		1	ISM20815
Floor grommet					
Grommet for floor applications, intended to suit a special version of the two-sided service post. Including trim frame with fixing devices, two-part cover and sealing foam for protection from dust and wet floor-cleaning. The cover has the function of a water-tight blank plate when no service post has been installed. When installing a post, the removed part of the cover remains in the grommet, secured by a strap. Hole diameter 127 mm. Material: Zinc, chromium plated.					
Floor grommet	—	38/Ø147		1	INS40550
Tube adaptor					
Two-part tube adaptor for floor grommet. Intended for flexible tubes Ø25 mm. With integrated strain relief of flexible tube. To be used for instance together with flexible tube and a furniture unit. Material: Zinc, chromium plated.					
Tube adaptor	—	39/64/80		1	INS40551
Earthing kit					
Kit including earth wire with flat pin connectors and earthing clamps. To be used to connect the front cover to the base profile.					
Earthing kit	Yellow/green	L = 200 L = 300		10 10	ISM10953 ISM10954
Earthing clamp					
Earthing clamp to be used for bonding of front cover, base profile and accessories to earth. Material: Steel.					
Earthing clamp	—	9/9/9		20	ISM10952
Modular device adaptor					
2-module adaptor for 1-2 modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC+ASA, white or alu metallic.					
Modular device adaptor	White RAL 9010	90/72/45		1	ISM10907
Modular device adaptor	Alu metallic	90/72/45		1	ISM10957

OptiLine 70

The universal Click-in installation system

Electrical, telephone and data installations must be easy to install, safe to use and flexible enough to ensure that changes are easy to make. The design of the visible parts must also set the right tone in the office.

OptiLine 70 universal installation system provide integrated installation solutions for ceilings, walls and desks. Together with Altira wiring devices, solutions are created that fulfil the most stringent demands for function, design, convenience and safety.

Universal click-in installation system

- 70 mm front opening
- Can be fitted with every type of wiring device (45x45, c/c 60 standard wiring devices and modular devices) by means of adaptors.

Environment-friendly

- Only lead-free and cadmium-free PVC is used
- The aluminium range offers a halogen-free alternative, including accessories.

Suitable for all types of wiring devices

OptiLine 70 can be used together with all types of wiring devices, both c/c 60 and 45x45 modules. Optimal function and design are achieved with Altira wiring devices.

Altira range

Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Altira main benefits

- Optional mounting direction for correct user interface in both trunking, poles and posts
- Connection piece for simple interconnection of double and triple outlets without space between
- 45° terminals. Easy to connect even though the outlets are close together
- Dual input and output terminals. For easy loop-through of additional connections such as earthing of trunking.

OptiLine 70

The universal Click-in installation system

Trunking

A cost-effective installation with high capacity.

The range

Available in PVC or aluminium with one or two compartments. The trunking has a high cable capacity which makes it suitable both for installation and distribution.

Main benefits:

- Easy installation without the need of instructions. Accessories are mounted directly without adaptation
- 55 mm depth. High cable capacity and space behind the wiring devices
- Pre-punched slots in the partition walls of the PVC trunking. Easy to make holes to feed cables between the compartments
- Trunking base and cover packed together, but not assembled. Easy handling
- Extra high cable capacity
- Adaptors with several unique installation benefits.

Poles

The best solution for a truly flexible office. Fed from the ceiling, preferably from connection boxes. Free-standing and movable poles give extra freedom. A pole can be moved within a radius of up to 1.5 metres from the connection point in the ceiling.

The range

Available in aluminium, free-standing or tension-mounted. One or two-sided, or with one or two dedicated installation boxes.

Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and slender form
- Stable, sturdy design. Several parts are cast
- Movable poles have steady feet. The rectangular foot also allows poles to be installed back-to-back or against a wall
- The adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools. Spring-loaded. Total working range of 400 mm
- Cable separation profile gives the correct spacing between VDI and power cables
- Adaptors with several unique installation benefits.

Posts

For power, telecom and data installations close to workplaces, on raised access floors, on screeded floor boxes in concrete floors or on in-cavity floors. Can also be used with other floors, in which case they are supplied via a floor feeder.

The range

Available in aluminium in one and two-sided versions for two or four two-module wiring device adaptors.

Main benefits:

- Design: Aluminium with a high surface finish. Softly rounded and compact form
- Stable, sturdy design. Several parts are cast
- Accessories for above-floor supply
- Cable separation profile gives the correct spacing between VDI and power cables
- Optimized height for two or four two-module adaptors
- Adaptors with several unique installation benefits.

Service boxes

A flexible alternative for desks in offices and conference rooms. Can be fed from ceiling, wall or floor.

The range

Available in aluminium in three sizes for two-module wiring device adaptors.

Main benefits

- Kits for easy ordering
- Optimized length for two, three or four two-module adaptors
- Combined stop end/desk fixing. Can be mounted on the desk-top or hanging from under it using the same fixing.

OptiLine 70 Trunking Presentation

Installation trunking with 70 mm front opening for all types of wiring devices

OptiLine 70 installation trunking are made of lead and cadmium-free PVC or aluminium with a 70 mm front opening. All types of wiring devices can be installed by means of adaptors. The adaptors have several unique installation benefits.

The trunking are 55 mm deep, which gives a high cable capacity and space for cables behind the wiring devices. OptiLine 70 is also very suitable as a feeder trunking.

One of the main advantages is the easy installation. The design is symmetrical and all accessories are click-in mounted without adaptations. It is also very easy to create cross-sectional feeding of the cables in the PVC trunking thanks to the pre-punched slots in the partition walls. Also the handling is easy. The trunking base and cover are packed together, but not assembled.

All OptiLine 70 products are designed to match Altira wiring devices in terms of colour, finish and design.

Dedicated installation fixings give a very reliable installation.

OptiLine 70 handles all types of wiring devices

OptiLine 70 is a universal trunking which can be fitted with any type of wiring device (45x45 modules, c/c 60 and modular devices).

Altira 45x45 module wiring devices

Optimal function and design are achieved with Altira wiring devices. Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Altira c/c 60 coloured front plates for walls can be mounted in the trunking by using OptiLine 45x45 adaptors, to match wall installation.

Click-in accessories

All accessories are designed for easy click-in mounting without tools.

- Easy installation without instructions
- Mounted directly without adaptations
- Mounted when trunking is in place.

Efficient mounting support

The trunking profiles are prepared for fast, exact and reliable installation.

- Pre-punched oval holes every 25 cm
- Easy to make X and Y adjustments.

Professional tools and fixings

- Dedicated tools and fixings for fast and safe installation.
- Extra long drills and bits to avoid damaging the front when using a drilling machine
- Fixings suitable for any material
- Screws for PVC trunking
- Screws to be used together with single-insulated wires.

Perfect joints

Two jointing pieces for exact levelling and a click-in joint cover piece to hide the gap.

- Perfect joints
- No tools needed
- Joint cover piece in one piece
- The jointing pieces can also be used for joints without joint cover piece.

Adjustable corners

The adjustable corners are delivered in one piece.

- Easy and quick to mount
- No adaptations needed.

Pre-punched slots for easy hole making

Pre-punched slots in the PVC partition walls.

- Easy hole making by hand or with a screwdriver
- Allows cross-sectional feeding of cables.

Perfect bends

The bend kit includes an adjustable fixing device to be screw-fitted to the wall.

- Large tolerances when cutting and fixing the trunking
- Self-guiding mounting of the bend piece
- Perfect result and finish.

The cable retainer – a helping hand

The cable retainer keeps all the cables in place in the trunking during the installation.

- Faster installation
- One man can do the work
- Blue colour for quick identification
- Can remain in place also after the installation.

Secure front cover

Reliable click-in function. High-quality material.

- Easy to mount also when kneeling
- Works reliably even at low temperatures
- Can not be opened without a tool
- IP40 classified.

Symmetrical design

The trunking base is symmetrical and has a softly rounded shape.

- Easy and safe mounting
- No risk of installing the trunking upside-down
- The trunking shape guides the accessories in place.

Dust protection

A sealing strip can be fitted between the trunking and the floor.

- 5-15 mm coverage
- Easy cleaning
- Solid impression.

Protective foil

Protective foil on both sides of the trunking base and on the front cover. The main product references including pictures are printed on the foil.

- No surface damages during the installation
- Easy to order accessories.

Smart package

The trunking base and front covers are packed together, but not assembled.

- Easy handling
- No damages. The covers are protected until final installation.

OptiLine 70 Trunking Presentation

Two-compartment trunking

- Suitable for all types of installations of power and VDI.
- Good separation of VDI and power cables
 - High cable capacity. The adaptors can be used without installation box
 - The cable retainer can be used in both compartments.

One-compartment trunking

- Especially suitable as a feeder of power or VDI.
- High cable capacity together with the cable retainer
 - When combining power and VDI cables, use a cable shelf or an adaptor with box for separation.

55 mm depth

- All trunking are 55 mm deep.
- High cable capacity
 - Space enough for 5x1.5 mm² or 5x2.5 mm² cable for three phase distribution behind the wiring devices mounted in the adaptors.

High classification

- The trunking is IP40 and IK07 classified.
- Safe and impact resistant
 - Can not be opened without a tool.
- The PVC trunking is fire classified in category M1.

Easy earthing of aluminium trunking

- The aluminium trunking base and front cover has easily accessible earthing rails. A pre-mounted earthing kit is available on one reference number.
- Easy to order
 - Quick and easy to mount
 - Screwless mounting.

70 mm front opening

- All OptiLine 70 trunking have a 70 mm front opening.
- One front opening for all wiring devices (45 modules, c/c 60 and modular devices) together with adaptors
 - No visible gap between the front plates of c/c 60 wiring devices and the front opening
 - Allows a rigid design of the adaptors for 45 modules
 - Allows three modular devices to be mounted in the trunking.

OptiLine 70 and Altira - homogenous design in the whole room

- All OptiLine 70 products are designed to match Altira wiring devices in terms of colour, gloss and design.
- Altira c/c 60 white front plates for walls can be combined with OptiLine white front plates in the same trunking
 - Altira c/c 60 coloured front plates for walls can be mounted in the trunking by using OptiLine 45x45 adaptors, to match wall installation.

Kits for easy ordering
Alitra socket outlet kits available on one reference number.

- Easy ordering
- Three kits for normal power (white)
- Three kits for data power (red).

Adaptors for 45x45 modules
Full range of adaptors.

- Three sizes: 1, 2 and 3 modules
- The reference number includes both adaptor and front plate.

Adaptors with a recess for front cover
The wiring-device adaptors have a recess for the front cover.

- Nice installation. The cut edge of the front cover is concealed
- Secures IP40.

OptiLine 70 handles all types of wiring devices
Five trunking sizes, three can be used for all types of wiring devices.

- 45x45 modules: Can be used in all sizes
- c/c 60: Can be used in 95x55, 120x55 and 185x55.

Adaptors with secure click-in interface
All adaptors have secure click-in interfaces.

- No gap between the front plates of the wiring devices. Secures IP40 and gives a nice result
- Several adaptors can be snapped together for a mixed power and VDI installation
- High pull-out loads on the wiring devices.

Modular device adaptor
The range includes a three-module modular device adaptor.

- Increased possibilities when planning the installation
- Decentralised protection architecture
- Energy bus distribution
- Easy to use other Merlin Gerin products such as RCBs, timers, etc.
- Support for KNX actors.

All adaptors have a box interface
All adaptors have an interface for click-in connection of an installation box.

- Easy to create separation between power and VDI
- The box can also be used for strain relief of cables.

Adaptor with built-in 71 mm distance
The c/c 60 adaptor has a safe click-in interface securing 71 mm distance between the outlets. Screw options in four directions.

- Standard front plates for wall mounting can be used also in OptiLine 70 products
- Correct user interface in both horizontal and vertical applications.

Boxes and adaptors with many interfaces
All boxes and 2 and 3 module adaptors have interfaces for snap-mounting of terminal blocks and earth terminals.

- Easy to create loop-through when using 3-phase distribution
- Easy to terminate the shield when using shielded cables.

Boxes with built-in safety
All installation boxes have push-down strain relief and an interface for cable ties.

- Easy strain relief. Just press down with a screwdriver
- Easy strain relief using a cable tie if the cable is laid in via the slotted entry.

Boxes with slotted entries
All installation boxes have slotted cable entries.

- Fast installation of pre-wired outlets
- Easy to add a box in post-installations
- Easy strain relief using cable ties.

PVC trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Installation trunking with one compartment				
Installation trunking including one-compartment trunking base and front cover. The trunking base has pre-punched mounting holes every 25 th cm and can be provided with cable shelves. The 70 mm front opening allows wiring devices to be mounted by using adaptors. Trunking base and front cover are supplied unassembled under separate protective foil, in lengths of 2 m. Material: PVC.				
P89106 	For 45x45 module wiring devices and modular devices	White RAL 9010	80/55/2000	12 m ISM11100
P89108 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	White RAL 9010	95/55/2000	12 m ISM11200
P89110 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	White RAL 9010	120/55/2000	12 m ISM11300
Installation trunking with two compartments				
Installation trunking including two-compartment trunking base and two front covers. The trunking base has pre-punched mounting holes every 25 th cm and can be provided with cable shelves. The integrated partition wall has pre-punched slots every 25 th cm to facilitate cable laying. The 70 mm front opening allows wiring devices to be mounted by using adaptors. Trunking base and front cover are supplied unassembled under separate protective foil, in lengths of 2 m. Material: PVC.				
P89114 	For 45x45 module wiring devices and modular devices	White RAL 9010	155/55/2000	8 m ISM11400
P89112 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	White RAL 9010	185/55/2000	8 m ISM11500

Accessories for PVC trunking

Internal corner				
Adjustable internal corner for an 80–100 degree angling of PVC trunking. Material: PC/ABS.				
P89174 	For trunking 80x55	White RAL 9010	89/117/117	1 ISM11101
	For trunking 95x55	White RAL 9010	104/117/117	1 ISM11201
	For trunking 120x55	White RAL 9010	129/117/117	1 ISM11301
	For trunking 155x55	White RAL 9010	164/117/117	1 ISM11401
	For trunking 185x55	White RAL 9010	194/117/117	1 ISM11501
External corner				
Adjustable external corner for a 75–135 degree angling of PVC trunking. Material: PC/ABS.				
P89175 	For trunking 80x55	White RAL 9010	89/105/105	1 ISM11102
	For trunking 95x55	White RAL 9010	104/105/105	1 ISM11202
	For trunking 120x55	White RAL 9010	129/105/105	1 ISM11302
	For trunking 155x55	White RAL 9010	164/105/105	1 ISM11402
	For trunking 185x55	White RAL 9010	194/105/105	1 ISM11502

Accessories for PVC trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Bend, 90°, kit				
90 degree bend kit for angling upwards and downwards of PVC trunking. Including bend piece and fixing device to be screw-fitted to the wall. Material: PC/ABS.				
For trunking 80x55	White RAL 9010	107/57/107	1	ISM11103
For trunking 95x55	White RAL 9010	122/57/122	1	ISM11203
For trunking 120x55	White RAL 9010	147/57/147	1	ISM11303
For trunking 155x55	White RAL 9010	182/57/182	1	ISM11403
For trunking 185x55	White RAL 9010	212/57/212	1	ISM11503
Stop end				
Stop end for PVC trunking. Fast fitting with locking clips. Screw-fixing possible for extra security. Material: PC/ABS.				
For trunking 80x55	White RAL 9010	84/56/21	2	ISM11104
For trunking 95x55	White RAL 9010	99/56/21	2	ISM10204
For trunking 120x55	White RAL 9010	124/56/21	2	ISM11304
For trunking 155x55	White RAL 9010	159/56/21	2	ISM11404
For trunking 185x55	White RAL 9010	189/56/21	2	ISM10504
Wall/ceiling frame				
Wall/Ceiling frame to be fitted around a PVC trunking at wall or ceiling passage. Easily modified to C or L-profile depending on how the passage is made. Snap-fitted, with a screw-fixing option for high security. Material: PC/ABS.				
For trunking 80x55	White RAL 9010	135/82/22	1	ISM11105
For trunking 95x55	White RAL 9010	150/82/22	1	ISM11205
For trunking 120x55	White RAL 9010	175/82/22	1	ISM11305
For trunking 155x55	White RAL 9010	210/82/22	1	ISM11405
For trunking 185x55	White RAL 9010	240/82/22	1	ISM11505
Joint cover piece, kit				
Joint cover piece, supplied and mounted together with two jointing pieces. Intended to cover joints between two PVC trunking sections. Easy to remove in case of an upgrading of the installation. Material: PC/ABS.				
For trunking 80x55	White RAL 9010	85/57/100	1	ISM11106
For trunking 95x55	White RAL 9010	100/57/100	1	ISM11206
For trunking 120x55	White RAL 9010	125/57/100	1	ISM11306
For trunking 155x55	White RAL 9010	160/57/100	1	ISM11406
For trunking 185x55	White RAL 9010	190/57/100	1	ISM11506

Accessories for PVC trunking

	Type	Colour	Dimensions A/B/C (mm) 	Qty per package	Ref. No.
	T-piece				
	T-piece intended to connect a vertical to a horizontal PVC trunking. Material: PC/ABS.				
P 89180 	For vertical trunking 80x55 and horizontal trunking 80x55, 95x55, 120x55, 155x55 and 185x55	White RAL 9010	52/57/102	1	ISM11107
	For vertical trunking 95x55 and horizontal trunking 95x55, 120x55, 155x55 and 185x55	White RAL 9010	52/57/117	1	ISM11208
	Front cover				
	Front cover to be snap-fitted in trunking with a 70 mm front opening. Supplied with protective foil, in lengths of 2 m. Material: PVC				
P 89181 	Front cover	White RAL 9010	71/13/2000	24 m	ISM11900
	Cable retainer				
	Cable retainer to be mounted at the back of the trunking base to keep cables in place during the installation phase. Also providing increased cable capacity when used in a one-compartment trunking. No need to remove the retainer when fitting the front cover. Material: PA.				
P 89183 	Cable retainer	Blue	42/48/25	5	ISM11901
	Cable shelf				
	Single cable shelf to be mounted in the trunking base, providing separation between power and low voltage cables. Supplied in lengths of 1 m. Material: PVC.				
P 85788 	Cable shelf	White RAL 9010	17/47/1000	24 m	ISM10902
	Joint cover piece for front cover				
	Joint cover piece intended to cover joints between two PVC front covers. Material: PC/ABS.				
P 91615 	Joint cover piece for front cover	White RAL 9010	71/24/23	5	ISM11903
	Jointing piece				
	Internal jointing piece intended to facilitate jointing of two PVC or aluminium trunking bases. May also be used to mount the joint cover piece. Material: PC/ABS.				
P 89184 	Jointing piece	White RAL 9010	4/39/100	10	ISM11904
	Sealing strip				
	Sealing strip to be fitted between trunking and floor for a 10-15 mm coverage. Supplied in lengths of 2 m. Material: PVC.				
P 85791 	Sealing strip	White RAL 9010	17/40/2000	24 m	ISM10905
	Adaptor for 45x45 module wiring devices, Altira				
	Adaptor including front plate. Suitable for 45x45 module wiring devices, type Altira and similar. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS.				
P 91590 	For one 45x45 module wiring device	White RAL 9010	73/35/71	1	ISM15100
P 91591 	For two 45x45 module wiring devices	White RAL 9010	73/35/140	1	ISM15101
P 91592 	For three 45x45 module wiring devices	White RAL 9010	73/35/185	1	ISM15102

Accessories for PVC trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Adaptor for 45x45 module wiring devices, Unica				
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Unica. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS (front plate), PBT (adaptor).				
For one 45x45 module wiring device	White RAL 9010	73/28/71	1	ISM15200
For two 45x45 module wiring devices	White RAL 9010	73/28/140	1	ISM15201
For three 45x45 module wiring devices	White RAL 9010	73/28/185	1	ISM15202
Adaptor for c/c 60 wiring devices				
Adaptor including two screws. Suitable for one c/c 60 mm wiring device. With screw options in four different directions, securing the correct orientation in both vertical and horizontal mounting. To be combined with installation box in applications requiring strain relief of cables or extra insulation. In order to avoid gaps between wiring devices and to secure c/c 71 mm between the outlets, thus allowing front plates from wall applications to be used, the adaptors can be snapped into one another. Material: PC/ABS.				
Adaptor, c/c 60	White	71/24/71	1	ISM15003
Installation box for adaptors				
Installation box to be snap-mounted to an adaptor. The box has a built-in screwless strain relief and an interface that allows snap-fitting of terminal blocks and earth terminals, as well as cable-tie strain relieving. Slots in the box allow pre-wired wiring devices to slide in. Material: PC/ABS.				
Box for one-module Altira/Unica adaptor or c/c 60 mm wiring device adaptor	White	71/42/71	1	ISM15010
Box for two-module Altira/Unica adaptor	White	71/42/140	1	ISM15011
Box for three-module Altira/Unica adaptor	White	71/42/185	1	ISM15012
Modular device adaptor, two-module, Unica				
Adaptor, two-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS (front plate), PBT (adaptor), PC+ASA (DIN-module), metal rail.				
For 1-2 modular devices	White RAL 9010	73/80/140	1	ISM15000
Modular device adaptor, three-module, Altira				
Adaptor, three-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS.				
For 1-3 modular devices	White RAL 9010	73/94/185	1	ISM15001

Accessories for PVC trunking

Type	Colour	Dimensions A/B/C (mm) 	Qty per package	Ref. No.
Outlet kit, Altira, pin-earthed				
Outlet kit including adaptor, front plate and single, double or triple Altira outlet, pin-earthed, with push-in terminals. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS (adaptor and front plate).				
 P91597	White RAL 9010	73/35/71	1	ISM15120
 P91598	White RAL 9010	73/35/140	1	ISM15121

 P91601	Red, white RAL 9010	73/35/185	1	ISM15125
Outlet kit, Altira, side-earthed				
Outlet kit including adaptor, front plate and single, double or triple Altira outlet, side-earthed (Schuko type), with push-in terminals. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS (adaptor and front plate).

Aluminium trunking

Type	Colour	Dimensions ^A A/B/C (mm)	Qty per package	Ref. No.
Installation trunking with one compartment				
Installation trunking including one-compartment trunking base and front cover. The trunking base has pre-punched mounting holes every 25 th cm and can be provided with cable shelves. The 70 mm front opening allows wiring devices to be mounted by using adaptors. Trunking base and front cover are supplied unassembled under separate protective foil, in lengths of 2 m. Material: Aluminium.				
P88450 	For 45x45 module wiring devices and modular devices	Anodized	80/55/2000	6 m ISM11150
P88452 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	Anodized	95/55/2000	6 m ISM11250
P88454 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	Anodized	120/55/2000	6 m ISM11350
Installation trunking with two compartments				
Installation trunking including two-compartment trunking base and two front covers. The trunking base has pre-punched mounting holes every 25 th cm and can be provided with cable shelves. The 70 mm front opening allows wiring devices to be mounted by using adaptors. Trunking base and front cover are supplied unassembled under separate protective foil, in lengths of 2 m. Material: Aluminium.				
P88456 	For 45x45 module wiring devices and modular devices	Anodized	155/55/2000	4 m ISM11450
P88458 	For 45x45 module wiring devices, modular devices and c/c 60 wiring devices	Anodized	185/55/2000	4 m ISM11550
Installation trunking, customer adapted				
Installation trunking according to special customer order. The trunking is available with one or two compartments, see above, and can be specified <i>in optional length and colour</i> . Implies a detailed specification. Material: Aluminium.				
Acc. to customer spec.	Optional	—*/55/Optional	—	ISMSPTR

*Five height measurements, see above

Accessories for aluminium trunking

Internal corner				
Adjustable internal corner for an 80–100 degree angling of aluminium trunking. Material: PC/ABS, painted.

For trunking 185x55	Alu metallic	190/57/100	1	ISM11556
T-piece				
T-piece intended to connect a vertical to a horizontal aluminium trunking. Material: PC/ABS, painted.				
For vertical trunking 80x55 and horizontal trunking 80x55, 95x55, 120x55, 155x55 and 185x55	Alu metallic	52/57/102	1	ISM11157
For vertical trunking 95x55 and horizontal trunking 95x55, 120x55, 155x55 and 185x55	Alu metallic	52/57/117	1	ISM11258

OptiLine 70 Trunking Range

Accessories for aluminium trunking

	Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
P82184	Front cover				
	Front cover to be snap-fitted in trunking with a 70 mm front opening. Supplied with protective foil, in lengths of 2 m. Material: Aluminium				
	Front cover	Anodized	71/13/2000	24 m	ISM11950
P89183	Cable retainer				
	Cable retainer to be mounted at the back of the trunking base to keep cables in place during the installation phase. Also providing increased cable capacity when used in a one-compartment trunking. No need to remove the retainer when fitting the front cover. Material: PA.				
	Cable retainer	Blue	42/48/25	5	ISM11901
P85788	Cable shelf				
	Single cable shelf to be mounted in the trunking base, providing separation between power and low voltage cables. Supplied in lengths of 1 m. Material: PVC.				
	Cable shelf	White RAL 9010	17/47/1000	24 m	ISM10902
P82193	Joint cover piece for front cover				
	Joint cover piece intended to cover joints between two aluminium front covers. Material: PC/ABS, painted.				
	Joint cover piece for front cover	Alu metallic	71/24/23	5	ISM11951
P89184	Joining piece				
	Internal jointing piece intended to facilitate jointing of two PVC or aluminium trunking bases. May also be used to mount the joint cover piece. Material: PC/ABS.				
	Joining piece	White RAL 9010	4/39/100	10	ISM11904
P85791	Sealing strip				
	Sealing strip to be fitted between trunking and floor for a 10-15 mm coverage. Supplied in lengths of 2 m. Material: PVC.				
	Sealing strip	White RAL 9010	17/40/2000	24 m	ISM10905
P85784	Joining/earthing piece				
	Internal jointing and earthing piece, intended for jointing and earthing of two aluminium trunking bases. Including two screws. Material: Zinc.				
	Joining/earthing piece	Untreated	4/6/26	10	ISM10955
P87186	Earthing clamp				
	Earthing clamp to be used for bonding of front cover, trunking base and accessories to earth. Material: Steel.				
	Earthing clamp	—	9/9/9	20	ISM10952
P85796	Earthing kit				
	Kit including earth wire with flat pin connectors and earthing clamps. To be used to connect the front cover to the base profile or the base profile to another base profile.				
	Earthing kit	Yellow/green	L = 200 L = 300	10 10	ISM10953 ISM10954

Accessories for aluminium trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.	
Adaptor for 45x45 module wiring devices, Altira					
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Altira and similar. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS.					
P91590 	For one 45x45 module wiring device	White RAL 9010	73/35/71	1	ISM15100
P91591 	For two 45x45 module wiring devices	White RAL 9010	73/35/140	1	ISM15101
P91592 	For three 45x45 module wiring devices	White RAL 9010	73/35/185	1	ISM15102
Adaptor for 45x45 module wiring devices, Unica					
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Unica. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS, painted (front plate), PBT (adaptor).					
P92195 	For one 45x45 module wiring device	Alu metallic	73/28/71	1	ISM15205
P92194 	For two 45x45 module wiring devices	Alu metallic	73/28/140	1	ISM15206
P92196 	For three 45x45 module wiring devices	Alu metallic	73/28/185	1	ISM15207
Adaptor for c/c 60 wiring devices					
Adaptor including two screws. Suitable for one c/c 60 mm wiring device. With screw options in four different directions, securing the correct orientation in both vertical and horizontal mounting. To be combined with installation box in applications requiring strain relief of cables or extra insulation. In order to avoid gaps between wiring devices and to secure c/c 71 mm between the outlets, thus allowing front plates from wall applications to be used, the adaptors can be snapped into one another. Material: PC/ABS.					
P91699 	Adaptor, c/c 60	White	71/24/71	1	ISM15003
Installation box for adaptors					
Installation box to be snap-mounted to an adaptor. The box has a built-in screwless strain relief and an interface that allows snap-fitting of terminal blocks and earth terminals, as well as cable-tie strain relieving. Slots in the box allow pre-wired wiring devices to slide in. Material: PC/ABS.					
P91693 	Box for one-module Altira/Unica adaptor or c/c 60 mm wiring device adaptor	White	71/42/71	1	ISM15010
P91694 	Box for two-module Altira/Unica adaptor	White	71/42/140	1	ISM15011
P91695 	Box for three-module Altira/Unica adaptor	White	71/42/185	1	ISM15012

Accessories for aluminium trunking

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Modular device adaptor, two-module, Unica				
Adaptor, two-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS (front plate), PBT (adaptor), PC+ASA (DIN-module), metal rail.				
For 1-2 modular devices	Alu metallic	73/80/140	1	ISM15006
Modular device adaptor, three-module, Altira				
Adaptor, three-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS.				
For 1-3 modular devices	Alu metallic	73/94/185	1	ISM15005
Terminal block, push-in				
Terminal block for push-in connection, 16A / 250V, 3x2.5 mm ² . For mounting in installation boxes and wiring device adaptors. Material: PPO, brass

	PC/ABS accessories	2J (IK07)	
Standards and certificates	The products comply with the standards: <ul style="list-style-type: none"> • EN 50085-1 : 2005 • pr EN 50085-2-1 : 2002 The products satisfy the provisions for CE marking according to the Low Voltage Directive 73/23/EEC and 93/68/EEC		

OptiLine 70 Poles

Presentation

Service poles with 70 mm front opening for all types of wiring devices

OptiLine 70 service poles offer very flexible installation solutions, bringing power, telecom and data directly from the ceiling to the desk.

The poles have a front opening of 70 mm, allowing 45x45 module wiring devices and modular devices to be installed by means of one, two or three-module adaptors. The one and two-sided poles can also take the one-module adaptor for c/c 60 mm wiring devices. The adaptors have several unique installation benefits.

The poles have a softly rounded and slender form and are made of natural anodized aluminium with a high surface finish. They are installed free-standing in the room, mounted on a foot and movable within a radius of up to 1.5 metres from the connection point in the ceiling, or tension-mounted between floor and ceiling.

Both types are available in one and two-sided versions or with one or two installation boxes for wiring devices. The spring-loaded and adjustable ceiling fixing for tension-mounted poles can be fitted easily without tools.

One-sided/one installation box

OptiLine 70 poles handle all types of wiring devices

OptiLine 70 poles are universal and can be fitted with 45x45 modules and modular devices by means of adaptors. The one and two-sided poles can also be fitted with adaptors for c/c 60 mm wiring devices.

Altira 45x45 module wiring devices

Optimal function and design are achieved with Altira wiring devices. Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Two-sided/two installation boxes

OptiLine 70 Poles Presentation

Design, finish and quality

All OptiLine 70 poles are made of natural anodized aluminium with a high surface finish. The form is softly rounded and slender. All parts are designed to give reliable function and easy installation.

Many mounting options

Accessories for all mounting options. The ceiling frame for the flexible conduit is mounted without a tool and can be adjusted to different ceiling thicknesses.

Stable and sturdy

Most parts in aluminium, several are die-cast. Foot in sand-cast iron.

- Stable and sturdy design
- Reliable function
- High-quality impression.

Two optional feet

The free-standing and movable poles can be delivered with a rectangular or round foot. Both made of sand-cast iron and painted grey.

Innovative rectangular foot

The foot has a steel clamp that can be unfolded for extra support.

- Steady
- Nice installation close to the wall
- Two poles can be placed back to back.

Ceiling frame

The tension-mounted poles can be provided with a self-sticking ceiling frame to cover the edge of the hole in a false ceiling.

- Nice installation
- Quick and easy to mount.

Handy ceiling fixing

Fitted easily without tools. Self-locking adjustment.

- Quick and safe installation
- 400 mm working range
- Mechanism outside the pole – does not interfere with the wiring devices.

Flexibility

The free-standing and movable pole has a steady foot and a flexible conduit.

- Easy to move the poles to optimize the office layout
- 1.5 m action radius.

OptiLine 70 Poles Presentation

Poles with a slim-line design and dedicated installation boxes

Two of the poles have a slimmed downfeed profile and one or two installation boxes for wiring devices. The box size is optimised for four two-module adaptors, and a short front cover (included) hides the cable entries in the pole.

- Nice installation
- Quick and easy to mount. No need to cut the front covers
- No gaps between the outlets. Perfect final result.

Two-module adaptor

The two-module adaptor allows mounting of 45x90 mm outlets.

- Possible to use RJ45 VDI wiring devices with two or four outlets.

Boxes with many features

All installation boxes have several cable inlets, either in the 45° chamfered corners or in slotted entries. They also have a built-in screwless strain relief and interfaces for snap-fitting of terminal blocks and earth terminals.

- Easy connections
- Easy individual feeding to the outlets
- Easy strain relief
- The cables can be laid in
- Fast installation of pre-wired outlets.

Cable separation

Partition profile for good separation of cables.

- Correct distance between VDI and power cables
- Full isolation between terminations and cables.

OptiLine 70 Poles

Presentation

Adaptors with secure click-in interface

All adaptors have secure click-in interface.

- No gaps between the front plates of the wiring devices. Secures IP40 and gives a nice result
- Two or more adaptors can be snapped together for a mixed power and VDI installation
- High pull-out loads of the wiring devices.

Smooth stop end

Stop end in cast aluminium with smoothly shaped edges.

- Covers the sharp cut of the base profile
- No risk of damaged cables.

Screw slots

Slots along both sides of the pole.

- For decorative colour stripes
- For products like spotlights, small shelves etc.

Easy earthing

The base profile and the front cover have easily accessible earthing rails. Pre-assembled earthing kit supplied with each pole.

- Quick and easy to mount
- Screwless mounting.

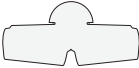

OptiLine 70 poles handle all types of wiring devices

OptiLine 70 poles are universal and can be fitted with 45x45 modules and modular devices by means of adaptors. The one and two-sided poles can also be fitted with adaptors for c/c 60 mm wiring devices.

Foot, round				
Round foot for free-standing, movable poles, to be fixed to the bottom plate of the pole by means of two M6 bolts (included). Suitable both for one and two-sided poles. Material: Cast iron, painted.				
Foot, round	Grey	29/Ø317	1	ISM20808
Floor fixing for tension-mounted poles, with slot for floor feeder				
Floor fixing for tension-mounted poles, one or two-sided. Fixed to the floor by screws. With slot for connection of floor feeder 18x75 or 18x91 mm. Gasket ring included. Material: Aluminium, powder coated.				
For one-sided pole and 18x91 mm aluminium floor feeder	Grey RAL 9007	45/100/153	1	ISM20650
For two-sided pole and 18x91 mm aluminium floor feeder	Grey RAL 9007	45/164/154	1	ISM20651
For one-sided pole and 18x75 mm PVC/aluminium floor feeder	Grey RAL 9007	45/100/153	1	ISM20652
For two-sided pole and 18x75 mm PVC/aluminium floor feeder	Grey RAL 9007	45/164/154	1	ISM20653
Ceiling frame				
Ceiling frame for one-sided or two-sided poles or for Ø65 mm profile. Covers the edge of the hole in a false ceiling. Self-sticking. Material: PS (polystyrene).				
Ceiling frame for 1-sided pole	White RAL 9010	1/111/170	1	ISM20550
Ceiling frame for 2-sided pole	White RAL 9010	1/170/167	1	ISM20551
Ceiling frame for Ø65 mm pole	White RAL 9010	1/Ø115	1	ISM20552

Accessories for service poles

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Ceiling frame				
Ceiling frame intended to lead flexible conduit through false ceiling. To be mounted in circular hole, Ø125 mm, by using three included clamps. Also including a slotted plastic plate to be used to lock the flexible conduit, which is fixed by cable ties. The plate can also be used as a drill template for entrance hole Ø125 mm. Material: PC/ABS.				
Ceiling frame	White RAL 9010	89/Ø161	1	ISM20812
Ceiling fixing				
Ceiling fixing intended to connect flexible conduit to ceiling or wall. Fixings not included. Material: Aluminium, powder coated.				
Ceiling fixing	White RAL 9010	50/156/90	1	ISM20816
Cable tray fixing				
Cable tray fixing including fixing material, intended to connect one and two-sided service poles to cable tray or cable ladder. Allows a flexible connection of the pole in various directions. Material: Steel, powder coated.				
Cable tray fixing, one or two-sided pole	White RAL 9010	75/72/126	1	ISM20553
Cable tray fixing including fixing material, intended to connect a Ø65 mm service pole to cable tray or cable ladder. Allows a flexible connection of the pole in various directions. Material: Steel, powder coated.				
Cable tray fixing, Ø65 mm pole	White RAL 9010	75/Ø72	1	ISM20554
Cable tray fixing including fixing material, intended to connect flexible conduit to cable tray. Material: Steel, powder coated.				
Cable tray fixing	White RAL 9010	100/15/70	1	ISM20813
Busbar fixing				
Busbar fixing for Ø55 mm conduits, intended to connect flexible conduit to busbar trunking. Material: Steel, powder coated.				
Busbar fixing	White RAL 9010	105/90/70	1	ISM20815
Front cover				
Front cover to be snapped into 70 mm front openings. With earthing slots. Supplied with protective foil, in lengths of 2 m. Material: Aluminium, natural anodized.				
Front cover	Anodized	2000/13/71	24 m	ISM11950
Partition profile				
Partition profile of halogen-free material with two partition walls. Mounted in internal fixing rails of one and two-sided poles, for the separation of power and low voltage cables. Material: ABS.				
Partition profile	White	500/49/50	10	ISM20555
Modular device adaptor, two-module, Unica				
Adaptor, two-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS (front plate), PBT (adaptor), PC+ASA (DIN-module), metal rail.				
For 1-2 modular devices	White RAL 9010	73/80/140	1	ISM15000
For 1-2 modular devices	Alu metallic	73/80/140	1	ISM15006
Modular device adaptor, three-module, Alira				
Adaptor, three-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS.				
For 1-3 modular devices	White RAL 9010	73/94/185	1	ISM15001
For 1-3 modular devices	Alu metallic	73/94/185	1	ISM15005

Accessories for service poles

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Adaptor for 45x45 module wiring devices, Unica				
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Unica. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS (front plate), PBT (adaptor).				
For one 45x45 module wiring device	White RAL 9010	73/28/71	1	ISM15200
For one 45x45 module wiring device	Alu metallic	73/28/71	1	ISM15205
For two 45x45 module wiring devices	White RAL 9010	73/28/140	1	ISM15201
For two 45x45 module wiring devices	Alu metallic	73/28/140	1	ISM15206
For three 45x45 module wiring devices	White RAL 9010	73/28/185	1	ISM15202
For three 45x45 module wiring devices	Alu metallic	73/28/185	1	ISM15207
Adaptor for 45x45 module wiring devices, Altira				
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Altira and similar. Terminal blocks and earth terminals can be snap-fitted in the two-module and three-module sizes. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS.				
For one 45x45 module wiring device	White RAL 9010	73/35/71	1	ISM15100
For two 45x45 module wiring devices	White RAL 9010	73/35/140	1	ISM15101
For three 45x45 module wiring devices	White RAL 9010	73/35/185	1	ISM15102
Adaptor for c/c 60 wiring devices				
Adaptor including two screws. Suitable for one c/c 60 mm wiring device. With screw options in four different directions, securing the correct orientation in both vertical and horizontal mounting. To be combined with installation box in applications requiring strain relief of cables or extra insulation. In order to avoid gaps between wiring devices and to secure c/c 71 mm between the outlets, thus allowing front plates from wall applications to be used, the adaptors can be snapped into one another. Only to be used in one and two-sided poles (without installation boxes). Material: PC/ABS.				
Adaptor, c/c 60	White	71/24/71	1	ISM15003
Installation box for adaptors				
Installation box to be snap-mounted to an adaptor. The box has a built-in screwless strain relief and an interface that allows snap-fitting of terminal blocks and earth terminals, as well as cable-tie strain relieving. Slots in the box allow pre-wired wiring devices to slide in. Material: PC/ABS.				
Box for one-module Altira/Unica adaptor or c/c 60 mm wiring device adaptor	White	71/42/71	1	ISM15010
Box for two-module Altira/Unica adaptor	White	71/42/140	1	ISM15011
Box for three-module Altira/Unica adaptor	White	71/42/185	1	ISM15012

Earthing clamp				
Earthing clamp to be used for bonding of front cover, base profile and accessories to earth. Material: Steel.				
Earthing clamp	—	9/9/9	20	ISM10952
Earthing kit				
Kit including earth wire with flat pin connectors and earthing clamps. To be used to connect the front cover to the base profile.				
Earthing kit	Yellow/green	L = 200 L = 300	10 10	ISM10953 ISM10954

Floor feeder and accessories

Floor feeder, aluminium				
Floor feeder made up by a three compartment base profile and cover, supplied in lengths of 2.5 m. The base profile has punched holes to simplify mounting. Provided with screw slots for earth connection. Can be used as a separate item or in combination with a service pole with slotted floor fixing for aluminium floor feeder. Meets load requirements according to VDE 0634 (750 N/50 mm ²). Material: Aluminium, natural anodized.				
Floor feeder	Anodized	18/91/2500	1	ISM20660
Floor feeder, aluminium				
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service pole provided with a slotted floor fixing for 18x75 mm floor feeder. Material: Aluminium, natural anodized.				
Floor feeder	Anodized	18/75/2000	8 m	ISM20857
Floor feeder, PVC				
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service pole provided with a slotted floor fixing for 18x75 mm floor feeder. Material: PVC.				
Floor feeder	Grey RAL 7030	18/75/2000	28 m	ISM20817
Floor feeder jointing piece				
Floor feeder jointing piece to cover joints between PVC floor feeder sections. Material: PVC.				
Jointing piece	Grey RAL 7030	20/50/78	10	ISM20818
Corner feeder piece				
Corner feeder piece to be used in 90 degree corners between PVC floor feeder sections. Material: PVC.				
Corner feeder piece	Grey RAL 7030	20/120/120	10	ISM20819

OptiLine 70 Posts Presentation

Posts with 70 mm front opening

OptiLine 70 posts give a neat installation solution on all types of floors. The 70 mm front opening allows 45x45 module wiring devices and modular devices to be installed by means of adaptors. The adaptors have several unique installation benefits.

The posts have a softly rounded and compact form and are made of natural anodized aluminium with a high surface finish. They are available in one and two-sided versions.

On raised access floors and in-cavity floors the posts are fed from under the floor. On concrete floors the feeding comes from a screeded floor box. For other floors a floor feeder is available as an accessory.

One-sided posts

Two-sided posts

Altira 45x45 module wiring devices

Optimal function and design are achieved with Altira wiring devices. Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Design, finish and quality

All OptiLine 70 posts are made of natural anodized aluminium with a high surface finish. The form is softly rounded and slendered. All parts are designed to give reliable function and easy installation.

Stable and sturdy

All parts in aluminium, several are die-cast.

- Stable and sturdy design
- Reliable function
- High-quality impression.

OptiLine 70 Posts Presentation

Optimised height

The height of the posts is optimised for two-module adaptors.

- Nice installation
- Quick and easy to mount
- No need for front covers
- No gaps between the outlets. Perfect final result.

Feeding along/under the floor

Posts could be fed from the floor or along the floor.

- Floor fixing for feeding from the floor as a standard
- Floor fixing with slot for floor feeder.

Two-module adaptor

The two-module adaptor allows mounting of 45x90 mm outlets.

- Possible to use RJ45 VDI wiring devices with two or four outlets.

Adaptors with secure click-in interface

The adaptors have secure click-in interface.

- No gaps between the front plates of the wiring devices. Secures IP40 and gives a nice result
- One or more adaptors can be snapped together for a mixed power and VDI installation
- High pull-out loads of the wiring devices.

Boxes with many features

The installation boxes have several cable inlets, either in the 45° chamfered corners or in slotted entries. They also have a built-in screwless strain relief and interfaces for snap-fitting of terminal blocks and earth terminals.

- Easy connections
- Easy individual feeding to the outlets
- Easy strain relief
- The cables can be laid in
- Fast installation of pre-wired outlets.

Screw slots

Slots along both sides of the post.

- For decorative colour stripes
- For products like hooks etc.

Smooth floor fixing

Floor fixing in die-cast aluminium with smoothly shaped edges.

- Covers the sharp cut of the base profile
- No risk of damaged cables.

Wet sealing

The floor fixing can be provided with a gasket ring.

- Gasket ring included in the package
- Effective wet sealing
- Stable mounting also on slightly uneven floors.

Easy earthing

The base profile and the front cover have easily accessible earthing rails. Pre-assembled earthing kit supplied with each post.

- Quick and easy to mount
- Screwless mounting.

Earthing kit				
Kit including earth wire with flat pin connectors and earthing clamps. To be used to connect the front cover to the base profile.				
Earthing kit	Yellow/green	L = 200 L = 300	10 10	ISM10953 ISM10954
Floor fixing with slot for floor feeder				
Floor fixing for one or two-sided service post. Fixed to the floor by screws. With slot for connection of floor feeder 18x75 or 18x91 mm. Gasket ring included. Material: Aluminium, powder coated.				
For one-sided post and 18x91 mm aluminium floor feeder	Grey RAL 9007	45/100/153	1	ISM20650
For two-sided post and 18x91 mm aluminium floor feeder	Grey RAL 9007	45/164/154	1	ISM20651
For one-sided post and 18x75 mm PVC/aluminium floor feeder	Grey RAL 9007	45/100/153	1	ISM20652
For two-sided post and 18x75 mm PVC/aluminium floor feeder	Grey RAL 9007	45/164/154	1	ISM20653

Floor feeder and accessories

Floor feeder, aluminium				
Floor feeder made up by a three compartment base profile and cover, supplied in lengths of 2.5 m. The base profile has punched holes to simplify mounting. Provided with screw slots for earth connection. Can be used as a separate item or in combination with a service post provided with a slotted floor fixing for 18x91 mm floor feeder. Meets load requirements according to VDE 0634 (750 N/50 mm ²). Material: Aluminium, natural anodized.				
Floor feeder	Anodized	18/91/2500	1	ISM20660
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service post provided with a slotted floor fixing for 18x75 mm floor feeder. Material: Aluminium, natural anodized.				
Floor feeder	Anodized	18/75/2000	8 m	ISM20857
Floor feeder, PVC				
Floor feeder made up by a base part with three compartments and a cover. Supplied in lengths of 2 m. To be used for feeding along the floor to a service post provided with a slotted floor fixing for 18x75 mm floor feeder. Material: PVC.				
Floor feeder	Grey RAL 7030	18/75/2000	28 m	ISM20817
Floor feeder jointing piece				
Floor feeder jointing piece to cover joints between floor feeder sections. Material: PVC.				
Jointing piece	Grey RAL 7030	20/50/78	10	ISM20818
Corner feeder piece				
Corner feeder piece to be used in 90 degree corners between floor feeder sections. Material: PVC.				
Corner feeder piece	Grey RAL 7030	20/120/120	10	ISM20819

OptiLine 70 Service boxes

Presentation

Service boxes with 70 mm front opening

OptiLine 70 service box kits provide flexible solutions for the supply of power, telecom and data to desks in offices and conference rooms. The boxes are supplied empty, intended for configuration by the customer.

Three boxes are included in the offer:

- Box for two two-module adaptors
- Box for three two-module adaptors
- Box for four two-module adaptors

All boxes are made of natural anodized aluminium with a high surface finish.

Altira 45x45 module wiring devices

Optimal function and design are achieved with Altira wiring devices. Altira offers a broad range of socket outlets, switches, VDI outlets and electronic products such as dimmers, movement detectors, thermostats and timers.

Design, finish and quality

OptiLine service boxes are made of anodized aluminium with a high surface finish. All parts are designed to give reliable function and easy installation. The base profile has easily accessible earthing rails. Pre-assembled earthing kit supplied with each box.

Kits for easy ordering

The boxes are delivered as kits including base profile, stop ends/desk fixings, cable lead-through and screws.

- Easy to order – only one reference number
- Quick and easy to mount.

Optimised length

The length of the service boxes is optimised for two-module adaptors.

- Quick and easy to install. No need for front covers.
- No gaps between the outlets. Perfect final result.

Adaptors with secure click-in interface

The adaptors have secure click-in interface.

- No gaps between the front plates of the wiring devices. Secures IP40 and gives a nice result.
- One or more adaptors can be snapped together for a mixed power and VDI installation
- High pull-out loads of the wiring devices.

Boxes with many features

The installation boxes have several cable inlets, either in the 45° chamfered corners or in slotted entries. They also have a built-in screwless strain relief and interfaces for snap-fitting of terminal blocks and earth terminals.

- Easy connections
- Easy individual feeding to the outlets
- Easy strain relief
- The cables can be laid in
- Fast installation of pre-wired outlets.

Nice installation

The boxes are fixed to the desk-top in a 15° angle.

- Nice installation
- Easy access to the outlets
- Nice, compact installation when placed back to back.

Stop end/desk fixing for all needs

The combined stop end/desk fixing allows mounting of the box either standing on the desk-top or hanging from under it.

Feeding from the ceiling

The boxes can be fed by a ceiling cable feeder of aluminium with a flexible conduit.

- Safe installation for stationary workplaces
- Suitable also for movable or adjustable desks.

Service box kits

Type	Colour	Dimensions A/B/C (mm) 	Qty per package	Ref. No.
Service box kit				
Service box kit intended for two, three or four two-module adaptors for 45x45 module wiring devices. Including base profile, stop ends/desk fixings, cable lead-through and screws. The stop ends/desk fixings allow mounting of the service box either standing on the desk-top or hanging from under it. Material: Aluminium, natural anodized.				
For two two-module adaptors	Anodized	100/67/286	1	ISM20700
For three two-module adaptors	Anodized	100/67/426	1	ISM20701
For four two-module adaptors	Anodized	100/67/566	1	ISM20702
Service box, customer adapted				
Service box according to special customer order. The box can be specified <i>in optional length and colour</i> . Implies a detailed specification. Material: Aluminium.				
Acc. to customer spec.	Optional	100/67/Optional	—	ISMSPDU
Stop end/desk fixing with hole for flexible conduit				
Stop end/desk fixing, left or right, for the above service box kits, including screws. With hole for flexible conduit Ø25 mm, allowing cables to be fed into the box from either end. The stop ends/desk fixings allow mounting of the service box either standing on the desk-top or hanging from under it. Material: Steel, powder coated.				
Stop end/desk fixing, left	Grey RAL 9007	104/61/22	1	ISM20750
Stop end/desk fixing, right	Grey RAL 9007	104/61/22	1	ISM20751
Mounting clamp				
Desk mounting clamp for the above service box kits. To be clamped around the desk-top and the fixing part of the stop ends/desk fixings. Material: Steel, powder coated.				
Mounting clamp	Grey RAL 9007	118/55/40	2	ISM20752

Accessories for service boxes

Adaptor for 45x45 module wiring devices, Unica				
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Unica. Terminal blocks and earth terminals can be snap-fitted in the adaptor. To be combined with installation box in applications requiring strain relief of cables or extra insulation. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS (front plate), PBT (adaptor).				
For two 45x45 module wiring devices	White RAL 9010	73/28/140	1	ISM15201
For two 45x45 module wiring devices	Alu metallic	73/28/140	1	ISM15206
Adaptor for 45x45 module wiring devices, Altira				
Adaptor including front plate. Suitable for 45x45 module wiring devices, type Altira and similar. Terminal blocks and earth terminals can be snap-fitted in the adaptor. To be combined with installation box in applications requiring strain relief of cables or extra insulation. Altira front plate for wall applications can be snap-fitted in the adaptor. To avoid gaps between wiring devices the adaptors can be snapped into one another. Material: PC/ABS.				
For two 45x45 module wiring devices	White RAL 9010	73/35/140	1	ISM15101

Accessories for service boxes

Type	Colour	Dimensions A/B/C (mm)	Qty per package	Ref. No.
Modular device adaptor, two-module, Unica				
Adaptor, two-module, for modular devices like for instance miniature circuit breakers. With transparent grey cover. Material: PC/ABS (front plate), PBT (adaptor), PC+ASA (DIN-module), metal rail.				
For 1-2 modular devices	White RAL 9010	73/80/140	1	ISM15000
For 1-2 modular devices	Alu metallic	73/80/140	1	ISM15006
Installation box for adaptors				
Installation box to be snap-mounted to an adaptor. The box has a built-in screwless strain relief and an interface that allows snap-fitting of terminal blocks and earth terminals, as well as cable-tie strain relieving. Slots in the box allow pre-wired wiring devices to slide in. Material: PC/ABS.				
Box for two-module Altira/Unica adaptor	White	71/42/140	1	ISM15011
Front cover				
Front cover to be snapped into 70 mm front openings. With earthing slots. Supplied with protective foil, in lengths of 2 m. Material: Aluminium, natural anodized.				
Front cover	Anodized	71/13/2000	24 m	ISM11950
Ceiling cable feeder				
Cable feeder including base profile with separation wall and cover. Diameter 52 mm. For cable feeding from ceiling to work-desk. Material: Aluminium, natural anodized or powder coated.				
Cable feeder	Anodized White RAL 9010	3200/Ø52	1	ISM20800 ISM20801
Desk lead-through				
Round guide bushing with flange and locking device. For lead-through of ceiling cable feeder through desktop. Material: Aluminium, powder coated.				
Desk lead-through	Grey RAL 9007 White RAL 9010	70/Ø80	1	ISM20802 ISM20803
Feeder adaptor				
Adaptor for ceiling cable feeder. To be used as connection for flexible conduit Ø55 mm. Material: Aluminium, powder coated.				
Adaptor	Grey RAL 9007 White RAL 9010	25/Ø58.5	1	ISM20804 ISM20805
Flexible conduit				
Flexible conduit, Ø55 mm, to be used to bring cables from ceiling to cable feeder. Material: PUR (polyurethane).				
Flexible conduit	Alu metallic White NCS	2000/Ø55	2 m	ISM20806 ISM20807
Ceiling frame				
Ceiling frame intended to lead flexible conduit through false ceiling. To be mounted in circular hole, Ø125 mm, by using three included clamps. Also including a slotted plastic plate to be used to lock the flexible conduit, which is fixed by cable ties. The plate can also be used as a drill template for entrance hole Ø125 mm. Material: PC/ABS.				
Ceiling frame	White RAL 9010	89/Ø161	1	ISM20812
Cable tray fixing				
Cable tray fixing including fixing material, intended to connect flexible conduit to cable tray. Gripping around cable tray. Material: Steel, powder coated.				
Cable tray fixing	White RAL 9010	100/15/70	1	ISM20813
Ceiling fixing				
Ceiling fixing intended to connect flexible conduit to ceiling or wall. Fixings not included. Material: Aluminium, powder coated.				
Ceiling fixing	White RAL 9010	50/156/90	1	ISM20816
